

## Big Red Assault Starts

Allies Reported Thrusting Back Foe

SEOUL, Korea, April 2 (UP)—Some 1,500 bugle-blowing Communist troops shouting "Kill! Kill!" hit the United Nations line today in the biggest enemy ground attack in three months.

The initial impact knocked U.N. troops off a hill west of the Allied truce camp town of Munsan on the western front, but the Doughboys rallied and recaptured the height in bloody fighting with rifles, bayonets and grenades.

At last reports, the Reds were retreating northward.

In the air, American Sabre jets damaged three more Communist MiG-15 jet fighters in a morning dogfight over "Mig Alley" to run their 24-hour toll of enemy jets to 26 destroyed or damaged. Ten MiGs were shot down Tuesday, three more probably destroyed and 10 damaged.

### COMMUNISTS WARNED

PANMUNJOM, Korea, April 2 (UP)—The United Nations warned the Communists today that the Allies will not withdraw their veto of Russia at a higher level truce meeting Thursday.

Col. Don D. Darrow of the U.N. said the Allies never would accept the Reds' nomination of Russia to the neutral truce inspection commission because the Soviets cannot be considered neutral in the Korean war.

He spoke at the final meeting of U.N. and Communist staff officers before a sub-committee of generals and admirals from the main truce delegations takes over the deadlocked problem of Russia Thursday.

Darrow said he "told them our position would not change in sub-delegation meetings or in plenary sessions."

## Violence Marks Quebec Textile Strike

VALLEYFIELD, QUE., April 2 (BUP)—The strike against the Dominion Textile Company started off with violence at the Valleyfield plant today.

Police say that more than 300 employees at the Dominion Textile Company subsidiary—Montreal Cottons Limited—tossed rocks, clubs and other objects through the windows early this morning.

The strike was called at midnight by the A.F. of L. United Textile Workers' Union of America against the Dominion Textile plants in Montreal and Valleyfield after negotiations between the union and company failed.

Six thousand workers in both cities are on strike over demands for a 25-cent-an-hour increase. The union earlier offered compromise of 21 cents but jacked up its price to the original figure when pickets began to file back and forth at the plants.

The company had offered a 10 per cent overall increase which was turned down by the union. In Valleyfield more than 15 policemen rushed to guard company property this morning. Police say that union organizer, Conrad Leblanc, Leblanc, shouted for the employees to stop and his order was finally obeyed after 700 windows were broken.

## R.C.M.P. Seek To Trap B.C. Safe Stealers

VANCOUVER, April 2 (CP)—R.C.M.P. set up road blocks in some sections of the Greater Vancouver area today in an effort to run down cracksmen who stole a 700-pound safe from the American News Agency at New Westminster.

Six men were questioned by police but were released when they explained they were on their way to work. Police continued to search for a car which is believed to have trailed the stolen truck and safe from New Westminster and was used as a getaway car.

Hero Earned His Bed and Breakfast

It might seem like small reward for youngster who scored winning goal in grueling Cougar-Royals overtime battle at Memorial Arena Tuesday night. But Reg Abbott was appreciative. Team-mates Bob Frampton and Leon Bouchard,

and friend, are happily relaxed today. Reg, particularly, enjoyed light breakfast. This trio meets Royals again tonight in fifth game of series at New Westminster. City's hopes ride with them. (Times photo.)

### NEW WESTMINSTER RADIO BAN

## CJVI May Be Forced Off Air for Cougar Game; CKDA Still Hopeful

A directive from New Westminster Hockey Club owner Kenny MacKenzie barring live radio broadcasts from Queens Park Arena tonight leaves some doubt as to whether the P.C.H.L. playoff game between Victoria Cougars and the Royals will be broadcast.

The telegram from MacKenzie to radio station CJVI read "be advised that all live broadcasts have been barred from this arena tonight."

CJVI announcer Ted Reynolds,

who has been airing all Cougar playoff games, said the issue would likely remain in doubt until later this afternoon.

"We have a meeting with MacKenzie and Queens' Park officials," Reynolds said. "We hope to be able to iron out the difficulties."

The order is believed to have stemmed from the fact that Queens Park was not sold out for the second game of the series last Wednesday.

The ban includes radio station

## COMPLETE SUCCESS FAR OFF, SAYS IKE

U.S., However, Must Continue Support Of European Rearmament, Eisenhower Argues

PARIS, April 2 (AP)—Gen Dwight Eisenhower said today the United States needs to continue its support of European rearmament—but must get more results for the money.

The general's opinion was stated in his first annual report as commander of the North Atlantic Treaty defense forces.

"Europe must become self-sustaining in military manufacturing at the earliest possible date," he said. "America cannot continue to be the primary source of munitions for the entire free world."

"It would be fatuous for anyone to assume that the taxpayers of America will continue to pour money and resources into Europe unless encouraged by steady progress toward mutual co-operation and full effectiveness."

### SUPPORTS N.A.T.O.

But the general left no doubt about his belief in N.A.T.O. Without it, he said, the future of Canada and the United States "could promise ever-greater danger of attack, requiring endless sacrifices and defense costs which would ultimately break their economies."

Eisenhower presented a 11,000-word report to the 14 nations aligned in defense against Communism.

"The purpose of our governments (in forming N.A.T.O.) was a very simple one—to retain the peace through establishment of a sound collective security."

Complete success is "still a long way off," he said, adding: "On the discouraging side, for example, we have had the strained economies in Europe threatening and slowing previously-predicted schedules. We know that, in spite of the expenditure of vast sums of money in the United States and elsewhere, the flow of equipment has not been as rapid as previously predicted."

"In Korea, Indo-China and Malaya, N.A.T.O. nations of Europe and in America are carrying very heavy burdens; burdens that are costly, both in blood and treasure. They have a direct effect upon our efforts here to establish a secure defensive arrangement in western Europe."

## Social Credit Threat in B.C., Declares Ash

EDMONTON, April 2 (CP)—Arthur Ash of Saanich, Liberal whip in the B.C. Legislature, said Tuesday night the Social Credit party is a definite threat in B.C. Mr. Ash spoke at a meeting of the Edmonton Liberal Association.

He said that after watching the Alberta Legislature in action he had been amazed at the "autocratic and arrogant" attitude of the Social Credit government. He had noticed that the government pays slight attention to Opposition suggestions.

### PINAY LOSES TO ASSEMBLY 432 TO 187

PARIS, April 2 (Reuters)—Premier Antoine Pinay tonight was decisively defeated in a vote on one of the key clauses of his 1952 budget bill.

By 432 votes to 187 the National Assembly refused to discuss the clause permitting the government to make, by decree, about 120,000,000 francs (\$300,000,000) of economies, 67,000,000 francs of them by cuts in investments and national reconstruction.

However, in the Nebraska primary, incomplete returns showed him only slightly ahead of General Eisenhower and former Governor Harold Stassen of Minnesota.

Taft, whose fortunes dropped to a low ebb with his defeat in New Hampshire and Minnesota primaries, took 24 of Wisconsin's 30 convention delegates. Governor Earl Warren of California, a part-time campaigner in the Wisconsin race, won six delegates. Stassen, who won the Wisconsin primary in 1948, lost out everywhere.

Among the Democrats, Senator Estes Kefauver of Tennessee

rode to landslide victory, taking all 28 convention votes and nearly 85 per cent of the party's total state-wide vote. His only opponents were Jerome Fox and Charles Broughton, politically unknown in the national scene.

Kefauver also appeared to be winning the Nebraska Democratic primary although he wasn't far ahead of Senator Robert Kerr of Oklahoma, making his first bid in a state popularity contest.

The vote was exceptionally heavy in Wisconsin and Nebraska—two of the 16 states which hold primaries in election years with the idea of giving voters an opportunity of indicating preference for presidential candidates. Delegates elected to go to national party nominating conventions in Chicago in July are not always bound to support the candidates they backed in the primaries. However, they are generally expected to do so until released by their candidate.

Even havin' 't spell Eisenhower on th' ballot doesn't keep th' voters from plumpin' fer Ike.

Reg Abbott seems determined 't get th' Cougars into th' money. An' I s'pose his namesake, Doug th' tax man, will have no objections.

# Williams Convicted Of Killing Chinese

## Manslaughter Verdict; Leniency Asked

By DAVE STOCK

Alexander Williams was found guilty of manslaughter in Assize Court today.

A 12-man jury returned the verdict at 1.13, after one and one-half hours' deliberation. The jury recommended leniency.

Mr. J. O. Wilson, presiding, ordered Williams be held in custody until the end of the Assize sitting for sentence.

Members of the jury trying Williams for the murder last Jan. 15 of Chinese messboy Dong Yew Yin, aboard the steamer Princess Joan, retired to consider a verdict after listening to Mr. Justice J. O. Wilson deliver an hour-long address, reviewing certain evidence, explaining points of law, and charging them with their responsibility.

The courtroom was jammed to overflowing. The crowd comprised mostly elderly men, and young and old women. There were some Chinese.

During the judge's summary of the case, spectators leaned forward as one so as not to miss a word.

Some of the crowd brought lunches. His Lordship began his charge

at 10.35. He told jury members the crime they were investigating involved "a humble member of society," a Chinese mess boy. But his station in life, he declared, made no difference.

He informed jury members they must conduct their investigation of all the circumstances with the same scrupulousness they would in the case of a cabinet minister.

### As Important as Anyone Else

With reference to the prisoner, who was formerly an engine-room wiper aboard the Princess Joan, the judge said that although he did not hold an exalted place in society, he was as important as anyone in a high post.

"You are called the jury and I am called the judge," His Lordship said. "But we are, in fact, all judges. And you are more important for it is up to you to decide the guilt or innocence of this man."

His Lordship instructed the jury it had three possible verdicts from which to choose: guilty of murder, guilty of manslaughter, not guilty.

He dealt at length with the manslaughter charge. He explained that a person causing death by committing an unlawful act could be found guilty of manslaughter even though he had not intended to kill but had acted on sudden provocation.

"Provocation does not entitle him to acquittal, it merely reduces what would otherwise be murder to manslaughter," His Lordship declared.

The judge went into a review of evidence, suggesting the Chinese mess boy had been a homosexual and a statement allegedly made by Williams that Yin had made improper advances to him and that he had struck and killed him in anger and had then disposed of the body by throwing it overboard.

"It seems to me, although it is up to you to decide, that statements, exhibits 23 and 24, were made by accused. It is up to you to decide whether they are true or untrue," the judge said.

He said the jury could accept part of the statements as being true and reject other parts as being false.

He observed Crown counsel Joseph McKenna would have the jury accept the part in which Williams admitted killing Yin, but would have them reject the explanation for his action.

"Ordinarily," the judge declared, "when one man strikes another with his fist, he does not intend to kill. But if a blow is unlawful and if death results, a man can still be found guilty of manslaughter."

His Lordship concluded his submission by urging jury members not to be troubled because the body of the Chinese had never been found. He suggested the jury accept the written statement allegedly made by Williams as ample evidence that there had been a death.

He chided the press for placing too much emphasis on the need for producing a body in murder cases.

"The press delights in referring to the corpse delicti," the judge declared. "But we don't ordinarily have bodies brought into a courtroom when we are trying murder."

The judge ended his pronouncement, declaring he had tried to simplify the case as much as possible.

Pickets Halt \$1,800,000 Barracks Job

Work on the naval barracks project at H.M.C.S. Naden stopped today. The reason, according to report, six men are not unionized. They have expressed willingness to join a union, however. Meanwhile, contractor's and labor's representatives met Labor Relations Board today. Picketing, left to right, G. C. Luney, Ove Witt, George Muldrew, Robert Milliken, Bill Moor and Len Hamilton. All but Milliken are members of steel workers' union. (Story on P. 15.)

## Judge Regrets Inability to Sentence Death

Sutton Given 30 Years in Prison

NEW YORK, April 2 (AP)—Bank robber Willie Sutton was sentenced today as a fourth offender to 30 years to life imprisonment. The judge said he wished he could sentence Sutton to death.

Said Judge Louis Goldstein in sentencing Sutton as a fourth offender: "I only regret that the law prevents me from sentencing you to death." He had pleaded guilty to a gun-carrying charge.

Sutton stood, blinking and handcuffed to two guards but made no comment during a 15-minute castigation delivered by the judge.

Sutton's legal team, Thomas (Scip) Kling, 45, were convicted Tuesday of the \$64,000 holdup of a trust company here in 1950.

## NEWCASTLE UNITED IN CUP FINAL

LONDON, April 2 (Reuters)—Newcastle United, holders of the coveted British Soccer Cup, entered the cup final today by defeating Blackburn Rovers 2-1 in their semi-final replay at Leeds.

## Three Killed In Nova Scotia Road Crash

PICTOU, N.S., April 2 (CP)—Three persons were killed and five injured, four seriously, when a truck and car collided Tuesday night at Marshville, in Pictou County.

The dead: John A. Henderson, 32, of Tatamagouche; Maige Forbes, 16, of Marshville, and Mrs. George Thompson, mother of six children, River John, Pictou County.

Hospital authorities said the injured were expected to recover.

## EISENHOWER TRAILS IN NEBRASKA VOTE

Kefauver Swamps Kerr in Democratic Primary; Heavy Balloting Marks Test

OMAHA, April 2 (AP)—Senator Taft of Ohio drove to a hard-fought victory today over General Eisenhower on the basis of mounting returns from Nebraska's grueling Republican presidential primary.

With three-fourths of the state's 2,058 precincts counted, the trend clearly indicated that only a political bombshell could reverse the slow but steady flow of votes toward Taft.

With 1,512 precincts counted, Taft's lead of 12,500 votes over Eisenhower was roughly the plurality given him in Omaha.

In the Democratic presidential contest, lanky Senator Estes Kefauver of Tennessee scored an impressive victory over Senator Robert Kerr of Oklahoma. Kerr conceded his defeat early today, thanked the voters of Nebraska for courtesies, and then said his defeat would not halt him in his fight for the Democratic presidential nomination. But the defeat was a jolt because it came in his first entry into a primary contest.

The latest rundown, based on 1,512 of 2,058 precincts: Republican—Taft, 53,705; Eisenhower, 41,225; Stassen, 35,997; Mrs. Mary K. Kennedy (stand-in for Gen Douglas MacArthur), 6,615.

Democrats, 1,483 precincts—Kefauver, 44,690; Kerr, 29,439.

Canada Leads in Commonwealth Oil

LONDON, April 2 (Reuters)—Canada became the leading producer of oil in the British Commonwealth for the first time last year.

Figures released today by the Petroleum Information Bureau here gave Canadian production as 6,500,000 tons for the first time ahead of British Borneo, which supplied 5,000,000 tons.

Oil production generally in the Commonwealth climbed in 1951 to almost 30 per cent more than the previous year. The total of 15,000,000 tons was more than three times as much as in 1946.

The sharp rise in Canadian output last year was due to the opening of a 1,000-mile pipeline from Alberta to the Great Lakes, it said.

This made it possible for the first time to pump Alberta's oil in bulk to Canada's main oil-consuming area in the east.

## MISS TRUMAN HAS FRIEND AMONG CRITICS

VANCOUVER, April 2 (CP)—The Vancouver Daily Province says in a front-page story today: "The Republican party and its bellicose press notwithstanding, Margaret Truman can sing."

In a dispatch from Victoria, where the U.S. President's daughter sang Tuesday night, Province managing editor Bill Forst, a student of singing for some years, added: "Margaret Truman can sing. She can sing with a drawing-room voice of delicate fabric, sweetly produced and giving a charming overall effect that to me justifies her appearance in the role of a concert entertainer."

# ON THE TIMES

By ART STOTT

My favorite writer has bared his heart again. It lies exposed, pulsing. And from the heart comes a message.

These many years he has been trafficking in words, manufacturing vernal eulogies to summer camp opening. Such writing seems distasteful to him now. There is shame in him because of it, and a hope that he may be forgiven his sins.

For, he says, there is nothing glorious about reopening the summer camp. There is nothing but hard work and bitter defeat. But at the word work, his exposed heart begins to throb gallantly, taking on the rhythm of the song the dwarfs sing in Snow White—"Work, work, work."

The truth, he confides, is that he likes working on his summer camp. The guests who come up later in the season and who are deprived of the opportunity to daub paint on the house, calk the boat, or saw the wood, are the victims.

He recalls, with a shudder an occasion when, in another part of Canada, he was forced to lie in a hammock at a summer camp and forbidden to touch, paint pot, axe or saw.

His one unspoken fear, it seems, is that he may run out of jobs at his summer camp. And that's where I come into the picture.

It so happens that I have a shack out in what was once the wilderness. And it so happens that I've been almost entirely a speculative camp fixer-upper. The jobs hold an academic appeal for me—always have. Lacking a hammock, I can lie out in the summer sun, gaze at my shack, and think of all sorts of things that should be done to make it weatherproof, waterproof and livable.

## No End of Opportunity

From the crown on the roof, where the shingles are beginning to split, to the foot of its cedar supports, where dryrot is setting in, my shack needs attention. I recognize that fact every time I look at it. Sometimes the amount of work that should be done on it piles up so much that I just have to roll over in the summer sun and look the other way.

Maybe it's just as well that I have to. It helps to give me an even tan, front and back.

Now it isn't that I lack appreciation for the nobility of toil. It isn't that I wouldn't understand the triumph of achievement if I ever achieved. It isn't that I lack appreciation for the viewpoint of Baron Pierre de Coubertin, who said it was the striving that counted, not the victory.

It's just that, somewhere way back in heredity, my antecedent's bloodstream was crossed with that of Jeeters Lester, the "Tobacco Road" loafer. Up to now, I've just never got around to working because somebody might deny me the right to work on a summer camp, patching leaks in roofs and rowboats, studying the mysteries of a paint pot or wielding an axe.

I've never got around to an understanding of the refined joys of such work. Lacking that understanding, I wouldn't have cared a bit if somebody else did it for me. I'm undeveloped that way. I don't realize my potential treasures when they loom up as work. I'm as ingenuous as the old Indians who used to trade off stacks of beaver pelts for long-barrelled rifles.

## A Bit Tangle-Footed, Mentally

But now that I've read my favorite writer's statement of faith and truth on summer camps, I'm beginning to feel just a little mentally tangle-footed. Dimly I can see that I've been missing something in not drawing the full enjoyment of work from my shack. I'm almost getting smart, like the boys who painted Tom Sawyer's fence for him. And the unhappy part of it is, the feeling is retroactive.

I'm beginning to realize I shouldn't have let my girl friend paddle me around the lake in the canoe in my sparkling days. She had all the fun. I'm beginning to think maybe I shouldn't let her chop the wood and the kindling, now we're married. Surely I'm entitled to a little enjoyment.

My days are beginning to stretch out stark and dismal, for all my expectation of summer suns.

But maybe I won't have to lie out on the beach on hot days. Maybe I won't have to keep flicking a thin stick with a line on it over the water. Maybe I can put off buying a hammock for another year.

Maybe it'll be all right if I shingle the roof again, renew the house supports, line my shack, splash a little paint on it and cut enough wood to see us through the season. Maybe the pump will go on the hummer again and they'll let me pack up the water.

If all that happens, it'll be a swell summer. I'll be able to rise early, start working and keep right on until I fall into bed exhausted at night. That'll be fun. But if I hadn't read my favorite writer, I might have missed it all.

## Communists Use Uphill As 'Front Man' Charged

VANCOUVER, April 2 (CP).—Communists seeking representation in the legislature in the June election are using veteran M.L.A. Tom Uphill of Fernie as a "front man," a Vancouver unionist charged Tuesday night.

The charge came from Tom Alsbury, president of the Vancouver and District Trades and Labor Council (T.L.C.), during a radio speech in which he was discussing the political situation in British Columbia.

Alsbury said the steering committee of Uphill's independent labor group "reads like a who's who of the Labor-Progressive party (Communist) executive."

"As anyone could have foreseen the Communists were quick to seize this opportunity to put up their candidates under a respectable name behind a front man. In this case Tom Uphill," Alsbury said.

"But nobody is fooled except perhaps Tom," added Alsbury. "I am afraid the only loser will be

## FIVE SWEEP TICKETS IN THIS AREA

### Stand to Win Stakes Saturday

At least five Victorians will be rooting for four different horses when England stages its classic Grand National steeplechase Saturday. Four have drawn different horses in the race through tickets in the Irish Sweepstake.

Two are women: Mrs. Nora Lee, of 1737 Adanac, and Mrs. Phillip Bonnell, of 3710 Saanich Road. The other ticket holders have not come forward to identify themselves. They are known only by their nom-de-plumes, Cruden Bay and Porger Vaughan. The fifth is Jimmy Kesson, 741 Fort, who holds a half share of Mrs. Lee's ticket.

They were notified of their good luck by telegrams Tuesday. Mrs. Lee was sorting greeting cards in the store in which she works, when her telegram arrived. It said her horse would be Hal's Venture.

Mrs. Bonnell, a housewife, received word at breakfasttime that Whispering Steel would be running for her.

Hal's Venture is quoted at odds of 66 to 1. Whispering Steel's chances are rated at 100 to 1.

The person who calls himself Cruden Bay has a ticket on Free Booter, a former Grand National champion, who is quoted at odds of 100 to 6. The person who took Porger Vaughan as an alias will have his hopes riding on Legal Joy, a 100 to 1 shot.

The four Victorians are among 82 Canadians who drew horses. Each will receive some money regardless of what happens. Should their horse win the race, they stand to collect something in the neighborhood of \$150,000.

The United States does not have an official national flower. A number of bills, naming such a flower have been introduced in Congress, but there is so much difference of opinion as to the selection of the flower that no official action ever has been taken.

## POLICE IDENTIFY MAN'S BODY

City police have identified the body of a man taken from the waters at the foot of Yates Street Saturday.

He is William G. Wake, 72, of 867 Viewfield Road, Esquimalt. An old-age pensioner and recent patient at Veterans' Hospital, he was identified by a fellow resident at the Viewfield address.

Coroner Dr. E. C. Hart said death was due to drowning. Wake had been missing from his cabin since Friday night.

Condensed from CP, AP, and UP Dispatches

**AMAZING**—A bank robber who escaped from the Oregon state penitentiary nine years ago is behind bars again today in Seattle because of the amazing memory of a former Seattle detective.

Jack Irwin, 51, was captured Tuesday in a bloody battle that aged in and out of a downtown hotel after he had been recognized by E. W. Yoris as the man Yoris arrested in Spokane 19 years ago for a Seattle bank robbery.

Yoris, now a Northwest Airlines security officer, notified Captain Richard Mahoney and Patrolman Palmer Hughes. They found Irwin in the lobby of the Frye Hotel.

**DEAD**—A Vancouver man was killed Tuesday when he fell from the Canadian White Pine lock at the foot of Kinross Street in Vancouver.

The victim—39-year-old Wally Ross—apparently struck his head on a beam before he hit the water.

Ross, dock foreman at the Fraser River plant, was pronounced dead on arrival at Vancouver General Hospital. Witnesses said he apparently slipped.

**COLLECTION**—In Vancouver, University of British Columbia officials have announced that the west coast institution soon will have the largest collection of French Canadian history west of Toronto.

The university has received a grant of \$7,500 from the Carnegie Corporation for a collection of French Canadian history. The university already possesses 130 volumes donated by 10 Quebec institutions.

**INSURANCE**—Keeping slim apparently is some insurance against getting cancer.

Overweight people are more prone to cancer and other diseases than normal weights, life insurance figures show.

The picture was described today to newspaper men on an American Cancer Society tour by Dr. Albert Tannenbaum of department of cancer research, medical research institute, Michael Reese Hospital, Chicago.

The abundant diet, especially in calories, seems to make it easier for cancers to start, he said. "Food doesn't cause cancer, but it may modify or influence the cancer process."

**DOGMA**—In Providence, R.I., thieves have broken into the Gateway Diner 22 times in seven years.

On the 22nd time last January, owner Edward K. Harris of Seekonk, Mass., bought a col-

German shepherd and let him sleep in the diner nights as a guard.

Thieves broke into the diner for the 23rd time Tuesday night. All they took was the dog.

**SECRET**—Commonwealth finance officials will hold a secret conference in London next month to examine the sterling area's current position, it was authoritatively stated here today.

Dates of the conference have not yet been fixed.

Officials and economic experts will attend from Canada, Britain, Australia, New Zealand, South Africa, India, Pakistan, Ceylon and Southern Rhodesia.

**DIED**—In St. John's Senator Herman W. Quinton, prominent in Newfoundland's turbulent political life for many years and member of his first provincial government, died today. He was 56.

Senator Quinton was twice a member of the Newfoundland House of Assembly before the old colony ran into financial difficulties and relinquished responsible government in 1933.

Then he served as Commissioner for Health and Welfare, Home Affairs and Education during the years that Newfoundland was ruled by a commission government.

**MISNOMER**—In New York an Arctic explorer plans to attempt to domesticate the nearly-extinct musk ox in New England.

John J. Teal, of McGill University, has received permission to trap eight musk ox calves on Ellesmere Island, in Canada's Arctic archipelago.

He said Tuesday he will try to domesticate the animals for the Vermont Animal Research Foundation. Teal believes that if they can exist on tundra-like, sub-marginal farm lands of New England, musk oxen might introduce a new factor in the area's economy.

He said musk ox is a misnomer for the animal, which is half way between a sheep and a cow.

**TOUR**—In Quebec Governor-General Vincent Massey arrived today for his first visit here since his appointment.

Escorted by his aide-de-camp, Capt. Nicholas Eden, son of British Foreign Minister Anthony Eden, and honorary aides, Massey stepped down from his train at Palais station to be greeted by Lieutenant-Governor Gaspard Fauteux of Quebec and other dignitaries.

Tonight, the Governor-General will attend a state supper at Bois de Coulange, official residence of Lieutenant-Governor Fauteux. Then he leaves for Montreal.

## Rampaging Flood Waters Recede at Medicine Hat

**MEDICINE HAT, Alta., April 2 (CP)**—Rampaging Seven Persons creek today edged back into its banks, indicating an early end to floods soaking this southern Alberta industrial city.

Flood waters dropped steadily throughout the night in the period normally bringing rising water from the previous day's haw.

The creek dropped 15 inches overnight. At dawn today it could just carry the runoff flow for the first time in 60 hours.

Three elderly persons were compelled to move from their homeless home in the early hours today. They had refused to leave the flooded home earlier, but authorities thought it wiser to compel the move under police urging.

City police had to be stationed in the flood-battered 25-block area Tuesday to halt attempts of many of the 300 evacuated families to return home.

Meanwhile, five more families were evacuated from the flooded

district and a new threat, though still remote, was seen in the one-foot rise of the South Saskatchewan river.

More than 1,000 persons have been left homeless. 25 city blocks have been inundated and mills, factories and one school have been closed. Tuesday, two flour mills bordering the rampaging Seven Persons creek went back into operation. One company ferried employees to work by truck through fender-deep water.

Late Tuesday night the city set up a nine-man flood committee and established a flood relief fund objective of \$200,000. Evacuees started their back-home movement after reports that the twisting Seven Persons creek was receding. The creek dropped two feet early Tuesday morning, then climbed four inches and dropped back to its earlier level.

But a high of 50 degrees was forecast for the area today and officials thought this could cause a swift rise in the water level.

## Edmonton Police Suspect Stenographer Murdered

**EDMONTON, April 2 (CP)**—The body of a young woman was found early today on the south bank of the North Saskatchewan River east of Edmonton's high-level bridge. Police said they are investigating the possibility she met with foul play.

Detective Roy Dick said the description of the woman tallies with that of a 19-year-old Edmonton stenographer reported missing Tuesday by her sister. Police ruled out a suicide jump from the bridge because of the distance of the body from the base of the bridge.

Persons living in the area reported having heard a woman scream about 1 a.m.

The body was found lying face downward on the ice at the river's edge. The woman ap-

peared to have suffered a severe head wound. Her topcoat was ripped and her stockings in shreds. Blood on the snow indicated she had rolled down the steep river bank.

## Tampering With Prices

THE QUARREL BETWEEN PRESIDENT Truman and his mobilization director, Mr. Charles Wilson, is precisely the sort of thing which could be expected when the government undertakes to fix wages and prices. By mere government regulation they will not stay fixed.

A short-run argument can be made, at a time of acute inflation, for rigid price and wage ceilings, like those imposed during the war, though they only disguise the real disease and postpone its effects. In the long run inflation, the disease, will express itself in high prices, the symptoms, regardless of the government's superficial sticking plasters.

But the American attempt to impose ceilings and then to readjust them from time to time under political pressure was bound to fail. The present case is a perfect example.

The President proposes to raise the wages of steel workers for political reasons and in complete violation of the ceiling which was imposed on wages under his direction. In other words, having declared that the cost of manufacturing steel (and other things) shall not be allowed to rise, he raises it by increasing wages, the major cost of everything.

When Mr. Wilson replies that steel prices should also be allowed to rise, if the wage and price ceilings are to be kept in the former relationship, the President objects. He wishes wages to rise to satisfy a large bloc of voters. He wishes prices to remain the same, and if thereby an injustice is done to industry it has relatively few votes for him to worry about.

Under this tampering by the government the ceiling becomes a fiction and something of a farce, as could be foreseen at the beginning. The government no longer can say that it has frozen prices, even in theory. It has embarked upon the complex and in the end too impossible task of fixing prices and wages individually, an entirely different matter.

If it intervenes in the steel industry to raise wages and hold prices then it will soon be involved in many other industries, of which the steel industry is the wage-making and the price-making pattern. Soon there is nothing left of the so-called ceiling. The state instead of the market becomes the real director

of the national economy while, of course, announcing that it still supports the free enterprise system.

It may be said that under the President's ceiling policy prices have ceased to rise. This is true. But it has very little to do with that policy.

Prices began to level off last year because the demand for goods dropped and the supply became more adequate. The main contributor to this result was the private consumer who, after the post-Korea buying panic, began to buy less and reduced the upward pressure on prices. The government's only real contribution to this result was its policy of credit restriction which made buying a little more difficult. The price ceiling was largely irrelevant, as proved by the fact that many prices did not reach to the level of the ceiling and required no intervention by the state.

Prices will fall if the supply of goods is larger than the demand. They will rise if the demand again out-runs the supply and in that case the government will be unable to hold them.

If the state will not permit industry to secure the prices which the market is willing to pay, if it raises costs of the industry to a point where it does not see a chance of reasonable profit, the industry will not produce. Those questions will be tested in the present wage negotiations in the steel industry and possibly in a disastrous steel strike, damaging to the national economy and particularly to the defense program.

Mr. Wilson sees all this and quits. He is well out of a position in which he was required, as a leading private enterprise, to enforce a system which denies the basic laws of enterprise.

He was willing to enforce an emergency price-wage freeze. Very properly he refuses to undertake, on behalf of the state, the management of industry, not on a basis of economics but on a basis of politics. He thought he was being asked to hold a ceiling and found that he was, expected to hold a political balance for the Democratic party. That is a job for a politician, not for an industrialist.

The job is left in the hands of the President who, despite his magnificent record in foreign affairs, has made just about every conceivable mistake in the management of the inflationary problem at home.

## As Chiang Told It to Bill Boss

IN HIS INTERVIEW WITH CANADIAN Press staff writer Bill Boss last week, Generalissimo Chiang Kai-shek advanced his views on a "limited offensive" against the mainland by his Formosa troops.

"It would not," the generalissimo said, "be aimed at regaining the mainland—which would come later as part of the common policy—but would draw large Communist armies and keep them too much occupied either to resume hostilities in Korea or to increase activities in southeast Asia."

The Nationalist leader noted that forces engaged in such an assault would be Chinese armies only, helped, if his proposal were adopted, in the form of weapons and munitions.

There is a certain point to his position. Use of his armies might keep the Red Chinese forces off balance and thereby restrain them from a strike in Korea or elsewhere.

On the other hand, there is a fact which Chiang appears to ignore. At the close of hostilities against Japan, Chiang

and his supporters were in China and in possession of substantial forces. Since that time they have been forced out of China. How the mainland Chinese might feel about their return is a question which the Chinese people only can answer. That answer has not yet been made clear.

And when Chiang refers to "regaining the mainland" in future "as part of the common policy," critical eyes will be turned on his definition of those words. His idea of "the common policy" might be the beginning of the Third World War.

It would certainly threaten the alliance of the free world since Britain, Canada and other allied nations would flatly refuse to support Chiang in any adventure on the mainland. So far as they are concerned, Chiang's plan would not be "a common policy" but a disruption of the existing accord, as Canada's minister of external affairs, Mr. L. B. Pearson, indicated in Parliament the other day.

## Level-Headed View on Amateur Drama

FOR VERY GOOD REASONS—6,000 of them—the Victoria Theatre Guild decided not to enter its B.C. Regional Drama Festival play "The Helms" in the Dominion Drama Festival in Saint John, N.B. The Victoria Theatre Guild could not see expenditure of that kind of money in quest of that kind of honors, even if \$6,000 could have been raised to send the play east.

The argument against participation was conclusive. Yet it is important to note the secondary consideration raised in discussion of the matter. The Guild members believed that if it were possible to acquire a sum as large as that needed for transportation, the money could be turned to better account by placing it in a fund for a more adequate theatre here.

Here is a sensible outlook on the problem of providing better facilities for amateur drama in this community. Too often special interest groups, seeking specific accommodation, take it for granted that the city and the public owes them special facilities.

The Victoria Theatre Guild seems to have a different attitude. It is an attitude which recognizes that money does not grow on trees and that careful thought should be given to its expenditure. If the Guild can follow up that point of view with a few money-raising productions and enlist the support of similar organizations to the same purpose, this community may very properly be inclined to give it the backing needed to acquire a satisfactory theatre.

## The Fight Against Cancer

NO AUTHORITIES HAVE YET COME forward to proclaim a cure for cancer. Almost daily, however, some announcement is made of an advance in the fight against that disease. The war of science and public education against the malignancy goes on.

To provide essential funds in that battle, the British Columbia division of the Canadian Cancer Society and the British Columbia Cancer Foundation are now appealing to the people of this province for \$250,000. This community's

portion of that objective is approximately \$35,000.

The money is needed to broaden the base of the attack against cancer through education, research and research facilities, and in the extension of welfare assistance, as well as for the provision of better diagnosis and treatment facilities.

Progress in the fight against cancer is continuous. To press it, funds are required. That is the basis of the appeal being made here now.

## Sport Has Seen the Light

"THE LAW IS A ASS, A IDIOT," said Dickens' Mr. Bumble. But the law catches on.

In Buenos Aires it has finally come around to recognizing a felon to whom Jesse James was a child, to whom Fagin was as a gentle old soul.

Down in the Argentine the law has prepared proper measures against the football referee. According to a new police code there, referees will be liable to seven days in jail and a fine if they are "guilty of partiality or negligence."

This lifts the referee clear of the comfortable position he has enjoyed as

an honorary life member of the White Cane Club and exposes him for what he is. So far the ruling applies only to soccer arbiters in the Argentine, but the blindfold has been removed from the eyes of justice. Anytime now we may expect this stern and just measure to spread around the world—even to the hockey rink and the baseball diamond.

And who will be judges of the referees, misdemeanors? The Argentine edict doesn't say. Obviously, however, the judges will be those fine, impartial and informed gentlemen sitting in the grandstands, rooting for the home-town team.

## Chips Off The Old Brock

By DAVID BROCK

AMERICANS laugh at the way the English spoil their dogs... see the whimsy-whamsy advertisements of various boarding kennels in the Times (London, not Victoria!). One gang of kennel-mongers advertises in much this fashion: "We have just oodles and oodles of pretty wabbits for your doggy-woggy to chase... wasey and flowery-wowersies for him to smelly-wellys! You don't believe me? All right, listen to this, taken verbatim from a typical Times ad: "Smart dogs should arrange now to come to X Kennels, Ascot Fashions Display! All beauty treatments given. Slimming, foam-baths, top-knots singed, eyebrows made glamorous."

Brock should arrange now to come to X Kennels, Ascot Fashions Display! All beauty treatments given. Slimming, foam-baths, top-knots singed, eyebrows made glamorous."

IF THAT isn't cute, what is?? Or this: "Send your dog to Y Kennels, where acres of grass, daffodils, and baby rabbits will delight his soul and make him fit and jolly! I've never heard of measuring rabbits by the acre but skip that... It's the tone I'm after, not the details. "A week here will do more for your dog than a month at the seaside." "Fitness campaign in full swing at our kennels, and dogs entering into it wholeheartedly." And so on... I have 15 of these ads on a single page of my scrapbook.

ON THE other hand, the English laugh at the way the Americans spoil their dogs... see the whimsy-whamsy advertisements in any American country-snob journal. Or see the perfectly ducky little dogs' funeral home in Evelyn Waugh's "The Loved One," which is really more like accurate reporting than mere satire. You know, one can understand English and Americans laughing at each other for different things, but when the pot calls the kettle black it must make even a dog laugh. By the way, this pot-and-kettle business crops up nowhere so much as in dramatic criticism. "Dripping with American sentiment." "Dripping with British sentiment." Cut the geographical adjectives out there, boys.

WELL, returning to the denmition bow-wow. Instead of laughing at each other, I think American and British doggy-blokes and tail-waggers should cash in on each other's soft hearts by inventing cuter and cuter ideas for export. I have just invented a particularly cute little article myself.

It is a tiny little, cute little, adorable little dog's garbage can, in the softest pastel shades of non-poisonous galvanizing. The dog doesn't put his garbage into it. No. You put his dinner in it and then he knocks it over, wrenches the lid off, and spills the contents all over the garden before eating half of it. Or over the rug, indoors, if you feel that is more humane and chummy. I feel that if God wanted a dog to eat out of spilt garbage cans, then it is wrong to deny your pet this hobby and natural function.

### A NEW ONE ON DAVE

I AM quite used to editors cutting me down on length, in the interest of saving space. It is an editorial custom, and quite right, too. Once in a while this cutting can ruin an argument by removing its links, or can alter the tone of the whole thing. On the other hand, it often improves a letter or article considerably.

But last month I had a completely new experience. Not only did an editor of B.C. dear lads, so stop guessing, will you... not only did he cut me down as was his right, but he got so enthusiastic, he began to change words around in the sentences. And not only did he change their order, but he changed some completely, putting in other words of his own, to the great peril of the original sense.

THEY say you should never reject a new experience. The Buddhists do so far as to claim that you can never reach their Nirvana (a rather dead place) until you have been through every experience known to man. That's perfectly dandy with me. I'll try never to be surprised at what's going to happen to me next. Though it's only human for me to wonder what IS going to happen next. But once certain new experiences have happened to me, and have been credited to my score, I trust they won't keep right on happening, over and over and over. As a novelty, they're fine. But don't make them monotonous.

## Gerrymandering Is Dated

Ottawa Journal

SIR Henry Lucy once wrote of Tim Healy that "he has whetted the razor of his mind on the strop of the House of Commons and now has it in first-class working order."

That, it seems, is what has been done by Charles Gavan ("Chubby") Power, the nearest thing to Healy that our Parliament will ever produce. After 35 years in the Commons he has got the "feel" of the House completely, speaks to it with a wit, humor, and sometimes with a brooding Celtic melancholy, unmatched by any of his contemporaries.

"Chubby" Power has come a long way from the days when, back from World War I as a hero, he used to explode on the floor of the House like some joyous firecracker. The wisdom he has garnered on this journey was shown this week when he told the House that the old, unfair practise of gerrymandering was dated.

He was not some "white-plumed Sir Gallahad seeking the Holy Grail of electoral purity," but the years had taught him that no government had ever gained anything from manipulating seats, while existing facts convinced him that no government ever could.

The call, therefore, was for a redistribution of seats that would be fair and just to all, which would be more concerned with the democratic rights of the electorate and less concerned with the fortunes of personalities.

What a pity our public life has not more "Chubby" Powers—more men of his understanding, his wide sympathies, his power of eloquence to express them!

## Tank Trap

## The Battle Continues

### Sees Advantages

If those who oppose the damming of Butte Lake have done nothing else, they have certainly stressed the importance of our provincial parks. This is a welcome change from the general public's indifference in the past; but, in all fairness, it must be said the die-hard defenders in the "Battle for Butte" have protested too much.

Their declaration that the building of a dam (outside the park boundary) and the raising of Butte Lake by 27 feet will permanently destroy the recreational value of Strathcona Park and its enormous acreage, is hard to believe.

What is even harder to believe is that anyone can seriously advocate the spending of an extra \$3,000,000 for a dam elsewhere merely to avoid disturbing the present shore line of Butte Lake. This figure alone is at least double the total amount that has been spent on provincial park development in all B.C. from the beginning of time.

### SPORTS CENTRE

The development of Mount Brenton as a year-round recreational area has been recommended to the government by many public organizations of Vancouver Island. Mount Brenton would provide, among other advantages, an unrivalled winter sports centre, close to Nanaimo, and Victoria—about the only important facility that southern Vancouver Island does not offer at present. The cost of this development would be a trifling fraction of the \$3,000,000 needed to "save" Butte Lake. If park funds are not yet available for Mount Brenton, can anyone expect millions to be spent elsewhere?

Even if Butte Lake were left untouched, Strathcona Park would still remain undeveloped and relatively inaccessible to all but a few. Is that the kind of conservation the "conservationists" advocate?

The building of a dam will provide a road to the heart of Strathcona Park. Mount Elkhorn and the Golden Hinde will become reasonably accessible. Trails can be made at little cost to Della Falls, the Comox Glacier and the Forbidden Plateau. All these are of equal or superior attraction to Butte Lake.

With the adequate safeguards laid down by the Controlling of Water Rights, surely the damming of Butte Lake can now be accepted as an unfortunate necessity, with, however, some real advantages to offset the temporary damage to the lake shore.

### Coal and Timber

Further to my letter which appeared in your issue of March 26, the point taken that the interests of the coal industry appeared to have been overlooked, is substantiated by the report of the Macdonald Commission of 1939. In these proceedings before the late chief

justice, it was established that the generation of power by steam was more economical than by hydro, and the following is quoted from the report, vol. 2, page 80, as follows:

"This hydro-electric plant (Puntledge River) cost \$358,000 (a lot of money in those days) reference page 2448. In view of an often expressed opinion among engineers that electrical power can be generated more cheaply by coal than water-power, this expenditure on the part of a coal producing company has not been explained. It is referred to at pages 2671 and 2672 in the evidence, and particularly at page 231.

Mr. O'Halloran: Q. I am suggesting to you (company witness) that you could have supplied yourselves with power much more cheaply through the agency of coal than through the hydro-electric?

A. Yes, we could."

Even if this were not so, with the rising cost of labor that may now be involved which contributes to the high cost of everything to the consumer, including the wage earner, the extra cost involved would be made up by added prosperity to the coal industry, which needs more encouragement than it has received, and it comes rather strangely from members of the Legislature representing Vancouver Island constituencies to overlook the needs and requirements of such a vital local industry.

### NO POLITICS

There should be no element of party politics involved in this issue but Mr. Ash need not be surprised if, by reason of the active part he has taken to support the project of damming Butte Lake, there are some at least among the conservationists who formed the opinion that he could have been selected as a sort of political "hatchetman" to promote a government policy that might already have been decided upon. In fairness, however, to Mr. Ash, I wish to state that he has assured me that "no one, from the Premier down, including the B.C. Power Commission, has brought any pressure whatsoever" upon him. Also, that he has never "been approached by anyone to lend support to this project."

I for one, though, while accepting his explanation, cannot understand his agitation in support of the project, as neither can I understand the position taken by Messrs. Whisker and Welch, both members representing Island constituencies. In the case of Mr. Welch, it is thoroughly understood that he is sympathetic with the interests of the timber industry and he is quoted in his speech as referring to the fact that some 2,500,000 feet of timber will be available from the shores of Butte Lake. While I am quite sure that Mr. Welch would not allow any personal interest to influence him, the fact remains that the whole policy of the government with regard to the disposal of Crown timber should receive the closest scrutiny.

One wonders if the B.C. Electric Company has ever heard of the man who killed "the goose that laid the golden egg."

If the city were to take over the bus service, there would be no need to raise fares for increased dividends for shareholders; but perhaps the present raise will encourage walking and cycling to such an extent, that the franchise will not be worth having by anyone.

### DUNCAN CANDIDATE

Referring to the meeting held at Duncan on March 27 for the purpose of forming a Duncan Group of the B.C. Social Credit League, the following statement is carried by the Vancouver Daily Province, the Victoria Colonist, and the Victoria Times in their issues of March 28:

"Following the setting up of district organizations, a constituency meeting will be called to name a candidate, with Reeve Beasley the likely choice for that nomination."

This committee is not sure of the source of this statement, which was made without its knowledge or consent.

Further, this committee has in mind several names to suggest to the delegates to the nomination committee, as and when formed.

According to the constitution of the B.C. Social Credit League, delegates are elected to the nomination committee by the meeting, and these delegates alone can vote to decide on the candidate.

Until such nomination committee has been elected, and has decided on a candidate, any announcement as to a candidate are premature, unauthorized, and can only tend to mislead the voters.

### BRITISH TRADE

Among western nations it is generally conceded that the overall economic and political situation calls for a strong Great Britain. For this to be possible financial strength is a necessity.

For 50 million people on a small island exhausted by two wars during which they had to bear a quite unfair share in the defense of the freedom of the world, this is naturally not an easy matter. If they were able to export enough of their manufactured products to North America to enable them to pay their purchases in the same area, this would presumably settle the whole matter.

It should, I think, be remembered that British goods are exported all over the world and that even if their manufacturing capacity were geared to the highest possible figure, the total amount available for export would have its limits and I should have thought that the U.S.A. and Canada could, without any serious difficulty absorb enough to supply them with enough dollars for their necessary purchases on this side of the water.

I do not know what the proportion is between sales by the States to Great Britain and purchases from them but I believe that the enormous disparity between the two would explain the entire situation.

I am quite well aware of the argument, "Our own manufactures must be protected," but if that is a must, then neither Canada nor the States should be astonished if British purchases are cut down if Britain is not as strong as the western nations would like her to be or as she would be if she were accorded fair treatment.

With her sales to countries on this side of the Atlantic cut down by high tariffs and most of the rest of the world in a bad state of unrest she has no easy task on her hands.

## Ups And Downs

By BRIAN TOBIN

"WE'RE making life," said the Elevator Man, "so easy these days, there's a danger that all our painfully acquired skills are going to be wasted. Take cooking, for instance. In grandmother's day cooking was a necessary skill that a woman had to have or her family went hungry. Nowadays it's more of a hobby. You can get all the foods you need already cooked, canned, frozen, preserved or dried. Any further cooking that's done is for the housewife's peace of mind. Then take the various jobs men do. Hardly a one that can't be done better by a machine these days. We've invented so many gadgets, thingamajigs and labor savers that you can live a very good modern life with just a thumb, for pushing buttons, as your contribution, going up."

"What," said the Elevator Man, "will this mean to the human beings who find themselves in this environment? The law of nature is that the muscle that is not used ceases to survive. If we can't keep up all the little skills we've been so proud of through the ages, they'll disappear too. The time may come when a breakdown of our machines will find us completely helpless and useless, just as most of us are when confronted with a broken watch. We can't tell the time and we can't fix the broken timepiece. Gadgets may be the death of us yet. Lower main!"

"It'll be harder and harder," said the Elevator Man, "to convince our young that they ought to learn all the things we thought were necessary. They'll remind us of the woman who went to the trouble to learn to shift gears on a car, then her husband came home with a car that had no gears. An extra gadget in the engine did the changing for her. When we apply that procedure to too many of our activities we can figure mankind's on the way out. Like telephone operators when the automatic exchanges came into use, man will quietly disappear."

## Juliana Takes Rough Gander In Her Stride

### Dutch Queen Due in Washington Today

GANDER AIRPORT, Nfld., April 2 (CP)—Queen Juliana of The Netherlands is a modern monarch in every sense of the word.

Tuesday night she slept at the Jupiter Hotel in a bare room with no bath or washstand. The floor was bare; the bedstead simple. Outside were all the noises of a busy international airport.

The 42-year-old Queen arose early today and prepared for her three-day state visit to Washington, where she will be the guest tonight of the President and Mrs. Truman in the rebuilt White House.

The Queen, accompanied by her husband, Prince Bernhard, Dutch Foreign Minister Dirk U. Stikker and 11 others, are due at the capital at 4 p.m. EST. today.

The Royal four-engined Constellation landed here early Tuesday night, first stopover of the North American tour that will end at Ottawa at the birthplace of Princess Margaret, third of her four daughters.

The main purpose of her trip is to thank the United States for aid to The Netherlands since the war.

Her free and easy gait during her stopover would indicate that her visit may overshadow the formality of the visit to Washington last fall of Queen Elizabeth and Prince Philip.

### ASKS FOR RESTAURANT

Shortly after she was escorted to her room, she appeared in the hotel lobby with her lady in waiting and asked the manager for directions to the "Big Dipper," a bar and restaurant as luxurious as the hotel is bare.

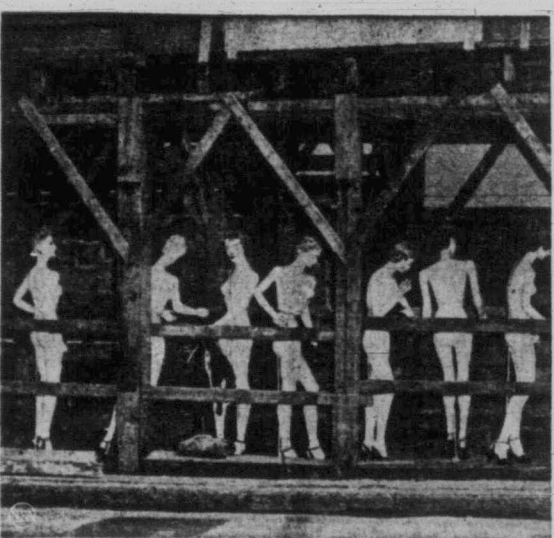

The manager told her it was just across the street and offered to escort her there. The Queen remained at the Big Dipper about half an hour and then returned to the hotel alone, waving off the Mounties who moved to form an escort behind her.

She wore a fawn suit and light beige hat.

The best Gander had to offer in the way of accommodations was a 15-foot-square room for the Queen. Prince Bernhard had a room on the same floor. The washroom was down the hall.

The Royal couple was notified of the facilities in advance but the Queen sent word that she agreed to them. Both rooms were guarded by Royal Canadian Mounted Police.

There were no official ceremonies and no reception, in accord with the mourning period for the King. It will be the same when Queen Juliana visits Canada after the official U.S. tour.

### Don't Be a Dummy

Manhattan isn't—and never was—like this. New York girls are beautiful, but a bit more restrained. The traffic-stopping sight occurred when mannequins were removed from a building in imminent state of collapse. Many motorists were reported in the same condition, after viewing the "review."

## INFLATION FIGHT UP TO LABOR—HOWE

### U.S. Steel Workers' Demands Might Harm Canada's Fight Against Living Price Index

OTTAWA, April 2 (CP)—Trade Minister Howe Tuesday night warned that wage demands by United States steel workers might start a chain reaction in Canada that could throw away victory over inflation.

He told delegates to the National Federation of Liberal Women that Canada appears to have inflation licked. The cost-of-living index report, due in a few days, will show that prices have been pushed back to last August's levels.

A further reduction could be expected the following month. The two reductions might mean a two-points drop in the index.

"The cost of living is well under control but with one reservation," Howe said. "Organized labor can upset the applecart. There are one or two disturbing situations outside of Canada which may spread into Canada."

Wage demands of the type made by United States steel workers could lead to price increases.

The Canadian economy was almost ready for anything if only labor could be counselled to use "moderation."

"Labor has not done too badly in the last few years . . . it does not seem necessary that labor should try to get extraordinary gains at this time."

He said the government was justified in not imposing price control. Inflation was curbed by

tightening credit, increasing excise taxes and other ways.

The government's anti-price-fixing legislation also brought no calamity to the retail trade as the opposition forecast when the bill was introduced.

Senator J. Gordon Fogo, president of the National Liberal Federation of Canada, also spoke. He said last week's Progressive Conservative Association convention announced no policy because "it has no fixed policy at the present time."

He said George Nowlan, president of the Progressive Conservative Association, covered up this situation by saying no policy statement would be made so the Liberals couldn't steal it.

### Saanich to Permit Strawberry Vale School Demolition

Permission has been given by Saanich council to School District No. 61 for the demolition of the old two-room Strawberry Vale School. The old school has not been in use since the new school was completed last year.

Complaints have been received against the erection of a Boy Scout hall on Whittier. Councilors R. H. Wooten, L. H. Passmore and G. Stanley Eden will visit the property and make a report to council.

## U.S. Steel Strike Seems Inevitable, Both Sides Adamant of Wage Issue

WASHINGTON, April 2 (AP)—A country-wide steel strike in the United States next week appears inevitable today unless the government can block it either by seizing the industry or getting a court injunction against the union.

Price director Ellis Arnall explained the government's attitude:

"I am very, very fearful we are going to have a steel strike. That is, if everyone continues as adamant as they appear to be now. In other words I don't see how it can be averted unless someone gives. I have no reason to feel optimistic."

Arnall's comments came after long talks with President Benjamin Fairless of the U.S. Steel Corp., the biggest producer. Fairless was pleading for price increases to offset government-suggested pay boosts for Philip Murray's United Steel Workers of America (C.I.O.).

A strike of 650,000 workers in basic steel is set for next Tuesday. Negotiations which were to have started in New York Monday, never got under way and await "further developments" from Washington, Murray called the delay "unwarranted."

### NO GUARANTEE

Arnall gave every indication of standing fast against giving the steel industry any special price consideration. He said his policy continues to be that "any industry will get what it's entitled to—and no more."

Arnall, head of the office of price stabilization, evidently had President Truman's backing in

holding the price line. Charles E. Wilson quit as defense mobilization chief last week-end because he said President Truman would not go along on a Wilson-suggested steel price increase.

# Stalin's Statement Said First Blast at Adenauer

By WILLIAM L. RYAN  
Associated Press Foreign News Analyst

HELSINKI, Finland, April 2 (AP)—Prime Minister Stalin's latest statement may signal an all-out drive by the Communists to picture the Soviet Union as the only champion of a unified Germany.

Stalin said he considers the present moment opportune for unification of Germany. He said it at a time the western powers are planning to sign a peace contract with West Germany, in belief that no final decision is possible in making peace with Germany as a whole.

Britain, the United States and France have been unable to find an approach toward such unification that is acceptable both to east and west. The Soviet Union, for one thing, has refused to do business with a United Nations commission designated to find out if all-German elections can be held fairly and honestly.

But the unity theme has a great appeal to Germans, including many in the areas occupied by the three western powers. Thus the Stalin statement, coming on top of Soviet approval of the idea of rearming a unified Germany, may serve as the starting point for a concerted attack on the West German government of Chancellor Konrad Adenauer.

A Germany unified on Moscow terms would create a vacuum in Central Europe despite Soviet claims to the contrary. The Soviet Union, of course, would like to neutralize Western Europe and bog down its building of defense works.

Stalin made his statement on Germany in response to questions sent by a group of U.S. newspaper and radio men on March 24. Four days later Adenauer announced that the British, U.S. and French foreign ministers would meet with him in May to sign a peace contract—a way of life with Western Germany. The signing of such a peace contract would formalize the east-west split in Germany, and perhaps prove a permanent block to Soviet plans for Europe. Thus there is a feeling of urgency in Moscow about Germany, and that is probably one

reason Stalin decided to answer the questionnaire. Stalin also said he considers a third world war no nearer than it was two or three years ago. That is a "welcome" mat for the international economic conference opening in Moscow Thursday. This conference is intended to build a fire under western governments to turn them away from

U.S. leadership and toward the east, for business. It offers the bait of money to be made by turning to a vast market in the east. To increase this lure the U.S.S.R. must try to convince western businessmen that war is not inevitable nor even likely—and that capitalism and Communism can exist peacefully side by side.

## PRINCIPAL AT 'FUNERAL' SITS UP AND ASKS FOR CIGARETTE

TOKYO, April 2 (AP)—T. Okabayashi, 54, a political bigwig in Kochi, staged his "pre-death funeral" this week. A good time was had by all, says the Kochi Shimbun. The "pre-death funeral" is supposed to be good luck for the principal character. About 200 Kochi celebrities turned up for the funeral procession, led by a brass band playing Auld Lang Syne. But leave it to Okabayashi to give his "funeral" a little different touch. At height of the rites the coffin opened, out he popped and yelled: "Give me a cigarette."

## Bustle on Great Lakes As Navigation Under Way

By The Canadian Press

Fleets of ships were astir on the Great Lakes today in the first big movements of the newly-opened 1952 navigation season.

Opening of the Welland Canal Tuesday lent impetus to the reviving bustle at Great Lakes ports. Still held in winter's icy grip is much of Lake Superior, although five vessels are expected to reach Lakehead this week, probably by Thursday.

If they do, it will be one of the earliest openings at the Lakehead in history. Last year the first vessel reached Port Arthur on April 9.

Sixteen ships were on the move in the Welland Canal shortly after it was officially opened. Moving up the canal were five oil tankers, all light, and a freighter, the Outarde, with a cargo of paper.

The first ship through was the Imperial Redwater, which with her sister ship, the Imperial Le-

duc, is believed to be the largest fresh water tanker in the world. Mayor John Franklin of St. Catharines presented Capt. Harold MacLellan with the traditional top hat.

Up the lakes the ice-breaker Mackinaw smashed at thick ice in the lower St. Mary's River in an attempt to make a channel wide enough for three Canadian freighters to move up to Lake Superior.

## Esquimalt's Sights Set On Costly Public Works

Esquimalt council took two major steps Tuesday night to advance needed public works projects in the municipality.

Councillors went over public works estimates amounting to \$128,200, and set out to draft a \$300,000 money loan by-law to provide funds for undertaking a new road-building program.

It is planned to spend this year \$20,724 on improving drainage facilities and about \$35,000 for secondary road improvements.

Money raised through a loan such as that proposed would provide for 4.6 miles of new road, which would be undertaken over a two-year period. The loan would be paid off over 15 years.

Among other projects which council considered was construction of an outdoor lacrosse box.

### Ladder for Entry To Saanich Home

Entry of a Central Saanich home is being investigated by Police Chief Vernon Lawley.

He said Tuesday a prowler had used a ladder to climb through a rear window of a house owned by Mrs. C. Guy, Simpson Road, but that nothing was reported missing.

## Game Body Asks Sportsmen's Aid

By ROY THORSEN

The British Columbia game department isn't yelling "help"—but they sure want the aid of the average Joe Blow who takes to the game trails and the fisherman to help in the over-all improvement of sport in the hinterland.

Inspector George Stevenson, B.C. Game Department boss on the island, made that clear to members of the Victoria Kiwanis Club at their regular Empress Hotel luncheon meeting Tuesday.

"Our game department manpower is too small to cope with such a vast territory as makes up British Columbia. A few men cannot cover the whole territory. We need you, the sportsmen, to bring in your observations on fish and game matters of all kinds to help us to improve the total picture in the fish and game world," said the inspector.

In other words, he was telling the outdoor clan that if they want their sport to continue to "give us a helping hand."

The inspector was telling the Kiwanis members, many of them hunters and fishermen, about game management. It's such a huge subject, however, that a half-hour talk could only give it "a brushing."

### WILL BE ACCEPTED

"Take your problems, what you see and hear, to our biologists and they'll investigate them."

### Fivepin Title To Southall's

Southall Stoves of the Mixed Fivepin Bowling League captured the team event in the annual fivepin tournament at Gibson's Bowladrome over the weekend, with a three-game score of 3,779.

The Stovemen finished over 200 pins better than Five Tramps, who finished in second place with a score of 3,565.

Highest scores on the Southall team went to May and Myrtle Martin, who had three-game scores of 854 and 801 respectively. Cy Martin led the men with 794, while Norm Martin posted 616 and Al Kirkbride 585.

Doubles and singles events in the tourney will continue at Gibson's next week-end. Entries are still being accepted.

### Complete results of the team event follow:

Southall Stoves, 3,779; The Five Tramps, 3,565; Pro Pals, 3,531; Cauteray Service, 3,492; Crows, 3,489; Baldy's Beachcombers, 3,487; Shawinigan Lumber Co., 3,484; Western Creamery, 3,481; Pickups, 3,481; Odds & Ends, 3,416; Little, 3,393; Victoria Laundry, 3,385; Esquimaux, 3,372; Fire Pits, 3,351; Bapco, 3,348; Cur Cuts, 3,334; Half Shots, 3,329; Horseshoes News, 3,304; Red's Service, 3,287; Tillamook, 3,281; O.P.'s, 3,218; Five, 3,200; Nickman-Tre Hardware, 3,199; Swift's Premiums, 3,141; Lawn Bowling, 3,135; Post Office, 3,080; Six-Mile Ranch, 2,998.

### WHOLE PLAN NEEDED

"We've now got to rely on our biologists in fish and game to devise a game management plan that will last for a period of years . . . in other words, keep things at the best level possible on the wildlife front."

"Many people might think that bringing science into the picture is nonsense, but investigations have proved that the scientific end is the true and logical solution to bring about a satisfactory plan to all concerned," the inspector said.

He went on to tell the Kiwanians about various aspects which had led the game commission to seek scientific aid in an effort to improve the fish-game set-up.

Natural enemies of grouse and deer, for instance, did not result in a depletion of the game.

"But when you bring the human predator into the scene the two have caused a marked decrease in the game supply—and that's why we've such a tremendous problem ahead on how to rectify the situation," said Insp. Stevenson.

Stars of Empress Tee Tourney

Two of the top competitors in the 160 men entered in the 22nd annual Empress Golf Tournament staged a terrific match at Colwood Tuesday in the first round of match play. Victor Harold Lineham, left, went up against Portland's F. J. Heitkemper, right, after Heitkemper

had won medalist honors in the qualifying round. The match was close all the way but Heitkemper rallied from a two-hole deficit at the ninth to win 2 and 1. Lineham was Empress tournament champion in 1930.

## Serious Player Shortage Faces Merchants Tonight

Every team in the Commercial Hockey League has at one time or another, found itself in the precarious position of being up the river without a paddle, player-wise.

Victoria Merchants will be in just that position tonight when they face off with Navy in the third round of a best-of-five series for the Commercial championship.

Facing a two-game deficit after Navy picked up 4-0 and 5-3 wins, Merchants tonight will have only two forward strings and four defensemen to battle the hard-skating and deeply-reserved sailors as they are three forwards short.

Merchants lost the services of forward Connie McBeth in the second game when he suffered a serious shoulder separation, the result of a stiff body check thrown at him in the bruising contest.

Rudy Discho, the second missing forward, has a set of badly bruised ribs and it is extremely doubtful he will play.

Len Elphick is the third forward who will not see action as he left for the east Saturday for service with the R.C.A.F.

Merchants have the option of bringing up a junior player to replace Elphick in accordance with the league constitution.

However, there has been some disagreement between Merchants and Navy over this ruling and Merchant manager Jim Lackie stated Tuesday night he may not bother.

**POSSIBLE RESULT**  
If the Victoria Cougars fail to advance to the Pacific Coast League finals, there is a chance that the Commercial League may not be able to finish the series unless Navy takes it in four straight games. The sailors will be at full strength tonight.

Arena manager Joe Dukowski reports that if the Cougars are eliminated this week the arena ice will be removed Monday.

Fourth game of the series may be played Saturday night and if Navy wins tonight and Saturday there would be no worries about ice.

However, on the showing, Merchants made in the first two periods of the second game, they could prolong the series.

Game time is 8:30.

## Crack Down On Bookies In Florida

FORT LAUDERDALE, Fla., April 2 (AP)—State investigator W. H. Gasque reported Tuesday arrest of three members of a ring which he said supplied horse race information illegally to bookmakers in the United States, Canada, Cuba and Mexico.

Gasque identified the men as E. A. Cordell, Robert Wisnant and P. J. Devatta, all of Miami. Cordell and Wisnant were arrested in their homes. Devatta was picked up Monday at Gulfstream race track. All three were charged with distributing race information illegally.

Gasque said the men were connected with Frank J. Palumbo of Miami, arrested last Thursday.

The investigator said Palumbo got the Gulfstream race results by telescope from Devatta, who signalled him from the top deck of the grandstand. Cordell and Wisnant, he added, used pay telephones in Miami and Coral Gables hotels to get the results from Palumbo.

## SOUTH BURNABY MAY STEAL EMPIRE GAMES

VANCOUVER, April 2 (CP).—South Burnaby Tuesday made an official move to "kidnap" the controversial 40,000 seat British Empire Games from Vancouver.

Oswald Freer, secretary of the South Burnaby Board of Trade, applied to Stan Smith, chairman of the games organizing committee, for "full consideration of Central Park as the stadium site."

The park is midway between Vancouver and New Westminster.

## Bob McQuire To Join Caps

LEWISTON, Idaho, April 2 (AP).—Bobby McQuire, Pullman, Wash., high school basketball coach, is expected to join Vancouver Capilanos of the Western International Baseball League, the Lewiston Tribune said Tuesday.

It said it had word from Vancouver indicating that McQuire, an outfielder, would join Capilanos after the spring semester ends.

## Seals' Reeder In One-Hitter

SAN FRANCISCO, April 2 (BUP)—A wave of optimism trickled through Pacific Coast League stadiums today, inspired by some good crowds and good baseball at the loop's opening games.

The P.C.L., 50 years old turned a leaf on its 180-game 1952 schedule Tuesday. And when the first flap was pushed back there were thrilling things for a baseball fan to see.

Cold weather kept the opening night throng to about 8,500 at San Francisco's Seals Stadium. But those who braved the chilly air were rewarded by witnessing Seal Bill Reeder's auspicious P.C.L. pitching debut. The tall Texan fashioned a spiffy one-hitter in gaining San Francisco a 2-0 decision over Portland.

At Sacramento, the Solons dropped a 1-0 decision to Los Angeles, and at Oakland, San Diego overpowered the Oaks, 6-2. Seattle defeated Hollywood 5-3.

In an effort to further promote badminton in this city, all local badminton clubs held a meeting at the Victoria Lawn Tennis and Badminton Club recently and organized the Victoria and District Badminton League.

The league, which is open to all organized clubs in the Greater Victoria area, including Sooke, Sidney, James Island and Salt Spring Island, will be divided into five divisions.

President of the newly-formed club is Lieut. (S.B.) W. H. Northey, R.C.N., while 'Phil Salmon was elected vice-president and Mrs. Salmon, secretary.

One member of each club in the league will be named to the executive committee. Dr. Arthur Poyntz was named honorary president.

## Nanaimo May Be Ousted

Commenting on a report in a Vancouver paper that stated that Fred Fulla and Lyle Scott, members of last year's Nanaimo Intercity Lacrosse League team were all but signed with Victoria Shamrocks, Ralph Baker, Rock manager, stated, "Ha, ha, ha."

The item in question said that Nanaimo's attempts to rebuild a last place finisher had been jolted "when it was announced goalie Fred Fulla and winger Lyle Scott were interested in the Victoria Shamrocks."

The item went on to say, "Scott moved to Victoria from Nanaimo recently and has been working out with the Shamrocks. Fulla, a rookie award winner last year, said at the close of last season that he was 'dissatisfied' in Nanaimo. A Victoria spokesman said Saturday that Fulla would probably workout with the Shamrocks."

"We haven't seen either Fulla or Scott," said Baker, "the only way we want Fulla is on an outright release from Nanaimo, not on a transfer."

"If he does come to Victoria, he'll still have to prove to us that he is a better goalkeeper than the material we have on hand."

But if a move started in Vancouver is followed up by the league executive, there may be no Nanaimo team in the league this season.

George Gray, Vancouver Combines' secretary, has asked league officials to draw up two schedules, one including Nanaimo and the other excluding them.

The first would be based on a six-game trial period to test the

strength of the Nanaimo entry.

If it was felt they were not strong enough for the rest of the league, they would be dropped and the second schedule would be used.

Nanaimo's entry and affiliation fee have been accepted by league secretary Tommy Gordon.

## Boxla Tads Start

The Greater Victoria Box Lacrosse Association will hold its first practise session of the season Saturday at Stevenson Memorial Box at 9:30.

The practise is for peewees and bantams, between the ages of 11 and 14. Players will be registered and sticks distributed. Several members of the Victoria Shamrocks will be on hand to assist in the coaching.

## New York Off In Slow Mart

NEW YORK, April 2 (AP).—The Stock Market kept to the downside today in a series of erratic movements.  
The decline ran from fractions to between 1 and 2 points. At the same time there were plus signs of equal size, but these were not prominent and did little more than provide a stable background for the slide.  
Volume came to an estimated 1,300,000 shares.  
Gains had a brief vogue in the second hour and ran up gains of fractions to around a point.

## Toronto Gains

TORONTO, April 2 (CP).—Steady support today toward the session's close held moderate mid-session gains.  
Trading was heavy with western oil speculation again dominating. Spooner Oil was a standout as it showed strength while more than 330,000 shares changed hands. High Crest was also active.  
A few lower-priced base metals and penny goods attracted interest but turnovers were moderate. Volume for the session was about 4,700,000 shares.  
Foods and construction led industrials upward with a scattered list of fractional advances. Steels, retail stores and miscellaneous issues also drew firm support.  
Western oils showed a majority of moderate gains.

## Montreal Up

MONTREAL, April 2 (CP).—Strong senior oil support gave a lift to an otherwise thoroughly mixed list near the close today on the Montreal stock exchange and curb market. Most changes were fractional, although there were a few upward movements of about a point.  
Steels, carriers and miscellaneous edged upward. Senior metals and utilities were mixed. Papers, beverages and banks turned lower.  
R.A. Oil jumped 1 1/2 points to a new high of 24.

## Vancouver High

VANCOUVER, April 2 (Noon close). Strong support in western oils pushed a wide list of active issues to new highs in trading at Vancouver Stock Exchange in the early session today.  
Up to record highs were: General Petroleum at \$10-Central Leduc \$4.05; Calvan, \$8; Canada Southern, \$14.25; Del Rio, \$3.25; Kroy, \$2.62.  
Averages were ahead a fraction for base metals and foods also gained slightly.

## London Stronger

LONDON, April 2 (Reuters).—Most sections of the stock exchange showed improvement today.  
The better tendency was attributed to the Chancellor of the Exchequer's statement to a Trades Union Congress delegation that the budget was already having a beneficial effect on the balance of payments crisis.  
Activity was largely confined to short-covering.  
British government securities recorded rises of around 3/4 of a point while industrials were also firm. Recently depressed issues such as textiles and rayons were strong as were tobacco. The provinces again supported the engineering groups.

# Pearson Denies 'Secret' Deals

Confidential Discussion Might Assist United Nations, Minister Tells Commons

OTTAWA, April 2 (CP)—External Affairs Minister Pearson said Tuesday that Canada has no "secret" or "under-the-table" diplomatic deals with other countries.

He suggested that the world could benefit from "confidential" diplomacy. Confidential discussions in place of the "headline" and "house-top" diplomacy of the Russians could result in more progress at the United Nations.

Speaking in a foreign affairs debate, Mr. Pearson said:

"There is not much secret diplomacy these days about the United Nations. Possibly we might make more progress if we had a little more confidential discussion there.

"Open covenants, yes; but open covenants occasionally negotiated after the principles and purposes of the negotiations have been made known to our own people.

"I am not sure that would not be more effective and far better for peace and good understanding than the headline and house-top diplomacy on which the Russian Communists, who now are the staunchest believers in open diplomacy, insist."

He made it clear that Canada, while concluding no secret deals with other countries, does conduct confidential diplomatic discussions.

WANTS DETAILS

He referred to a statement made earlier in the debate by George Drew, Progressive Conservative leader. Mr. Drew has asked if Canada knew of an arrangement between Britain and the United States last year concerning the possible extension of the Korean fighting to Red bases on the China coast.

If Canada did know, Mr. Drew had suggested, parliament should have been informed of the arrangement "in complete detail."

Mr. Pearson suggested that would be a "most unusual and unfortunate way in which to conduct diplomacy." Canada could not expect foreign governments to deal with her in complete confidence if such disclosures were made in parliament.

The Canadian government did know of the London-Washington discussions, but if they were to be made public that should have been done by the governments concerned.

While the discussions were going on, Canada made known her views to Britain and to the United States—that there should be no retaliatory action against China without consultation unless the safety of the troops

made such action essential and time and circumstances did not permit consultation.

N.A.T.O. AIMS

Mr. Pearson made these other points:

1. The North Atlantic Treaty Organization is aiming to build up enough armed strength by the end of 1954 to halt an invasion of Europe. The alliance expects to have a land force of between 80, 110 and 115 divisions by that time. The goal of 50 divisions by the end of this year is "firm."

2. N.A.T.O. asked Canada to contribute \$175,000,000 in mutual aid to other countries.

3. Since 1945, Canada has expended \$2,430,000,000 of mutual aid to other countries.

4. For the next three years, Canada has no further military commitments to N.A.T.O. beyond the already-announced intention of supplying an army brigade and 12 squadrons of R.C.A.F. fighters.

5. Canada has no new or additional commitments in Korea, where the United Nations still hopes to repel aggression to prove to the aggressor that it does not pay.

6. The question of whether or not Formosa should be handed to Red China should be left open until steps are taken to settle Asian problems.

In the debate, to be resumed today, Stanley Knowles (C.C.F., Winnipeg North Centre), called for support of his party's motion of non-confidence in the government.

The motion charges that the government with "failure" to take the initiative in implementing sections of the Atlantic Pact dealing with non-military economic co-operation.

Lt. Col. Douglas Harkness (P.C., Calgary East) suggested that even 300 N.A.T.O. divisions—let alone 50—facing the Russians in western Europe would not do much good unless there was the "will to fight." The difficulty was that there was not much will to fight in western Europe. It was possible that some economic aid might help to encourage the western Europeans.

Rev. E. C. Hansell (S.C.MacLeod) called for economic assistance to Britain.

## SWAP SHIRTS AFTER FIGHT, FINED \$15

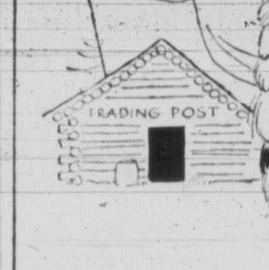

NEW YORK, April 2 (AP)—Two men arrested for slugging each other Tuesday night got so chummy that by the time they reached night court they had swapped the shirts off their backs.

John Barrett, 32, and Eugene Gauthiers, 38, got in a fight because Gauthiers didn't like the way Barrett talked when they met in a restaurant.

Before fining them \$15 each for disorderly conduct, Magistrate Jack Nicoll asked Barrett about the blood on his shirt.

Barrett explained that the shirt belonged to Gauthiers, and Gauthiers was wearing his (Barrett's) cleaner shirt.

Gauthiers explained further: "We exchanged shirts at the police station because my mother was coming to see me."

## Strike of 6,000 Textile Employees Idles Quebec Plants; Mild Outbreak

MONTREAL, April 2 (CP)—Some 6,000 textile employees here and at Valleyfield, Que., are on strike today, seeking higher wages.

The strike went into effect at midnight, and closed down five Montreal mills of the Dominion Textile Company and a subsidiary company at Valleyfield, Montreal Cottons, Ltd.

The strikers are members of the United Textile Workers of America (A.F.L.).

Shortly after midnight, some 200 men started picketing the plant at Valleyfield, some 35 miles south of Montreal.

Police said a number of stones were thrown and that most of the windows on one side of the plant were smashed. No arrests were made but police were posted around the plant to prevent a recurrence of the outbreak.

Informed of the situation, a company spokesman said in Montreal that there was "no provocation for this. It was an obvious piece of organized violence intended to set off the strike with a bang."

There was no violence reported of which had been working on a curtailed week due to lack of orders.

The last major strike to hit the company was 1946. Workers in Valleyfield were out for 100 days before they accepted a new contract. The strike in the Montreal plants was settled after little more than two months.

In a statement following the strike, the company said that "the entire textile industry in Canada, and throughout the world, is in the grip of a serious depression."

Final approval of strike action came at meetings in the centres affected Sunday night. There was no immediate union statement.

Earlier this week, union representatives turned down a com-

pany offer of a 10 per cent general wage boost, 5 per cent of which would have been retroactive to last September 5 and the remaining 5 per cent on signature of contract.

Both parties earlier refused a 13-cent increase recommended by the chairman of an arbitration board investigating the differences. Arbitration board findings are not binding in Quebec.

The union struck for a 21-cent increase and certain privileges.

## BETWEEN TIMES

By MONTE ROBERTS

For your information: Caddy lives on Pender Island. You can look it up in the directory—Caddy, Jas., retired.

**Admonitory note to Don Ingham:** It is all very well to attend classes in French cooking, and on the evidence of your first lesson, the lady in charge seems to be in favor of edible food.

But please keep your eye peeled for the first sign of F.O.O. I find it hard to believe that F.O.O. will be entirely absent, with a woman in charge of the classes, and 44 women attending.

Be warned, Don. Be ready to launch a protest at the first illegal use of mayonnaise.

And get set to throw a saucepan if they take the top off a jar of marmalade cherries.

Every man in Victoria will be behind you. Get in there and fight, Don, they can't hurt us.

The gentlest sign in Victoria is on the main door to the J. Keith Wilson Memorial Laboratory, Royal Jubilee Hospital. A typewritten message reads: "Please use the glass plate, and do not dirty the nice paint."

Plumber's little helpers: A brave and enterprising plumber in the United States is conducting night classes in his ancient art for the benefit of housewives.

He is teaching them to change washers and cure other minor ailments which afflict themselves upon the hot and cold water systems, bringing distress to the housewives and accumulated grief for father when he comes home from the office.

This is a wonderful idea. As the plumbing teacher points out, the modern home requires a stationary engineer and an electrician to keep it in running order, and the ladies are well advised to take technical training before essaying to turn on the automatic range.

However, it can be seen at a glance that the plumber is up against a hopeless task in one phase of his training program.

He strongly urges using the right tool for the job.

This is something that no woman will ever do.

It is constitutionally impossible for a woman to use a hammer to hammer in a nail, when she has a shoe handy.

The only time that women were seriously handicapped in the tool department was during the era of very short hair.

Without a hairpin, the average woman is completely helpless.

I earnestly suggest that the professor of plumbing have his breath on the "right tool" routine, and concentrate on teaching how to get the best results from use of a bent pin, a broken can opener, and father's favorite pipe-reamer.

I can understand why fathers worry so much about their sons. After all, they used to be sons themselves.

## ISLAND DIGEST

**LADYSMITH, April 2—A** Red Cross blood donors' clinic will be held here April 10, with an objective of 350 pints. Dr. J. W. Neville is clinic chairman, Canadian Legion W.A. will look after registration, and members of the Registered Nurses' Association will give bedside service.

**SOOKE HARBOR, April 2—**Improvements made to Sooke Community Hall during the winter include addition of a new drainage system, two rest rooms, a downstairs dining room, and lining to inside stairways. Total cost was \$4,000.

**LADYSMITH, April 2—**Ladysmith and District Hospital Foundation has set an objective of \$100,000 to help build a new hospital in the city. Officers and committee members of the foundation are Bill Robinson Sr., chairman; Mrs. Helme Kotilla, Donald McKay, Harvey Wallace, John Cochran, Charles Miner, Jack Rogers and Ald. Tom Bertram.

**DUNCAN, April 2—**After an investigation delayed six weeks, a coroner's jury returned a verdict of death by misadventure in the case of Sukhjit Kour, who died Feb. 16 after having eaten 25 or 30 pills. According to evidence the 14-month-old victim had been playing with her older sister, who apparently had taken the pills from a buffet. A report by the provincial analyst had been delayed through pressure of other work.

**SOOKE HARBOR, April 2—**Sooke Community Association has elected the following: George Pimlott, president; Frank Gray, vice-president; Walter Conder, Mrs. Kenneth Cairns, Richard Cairns, Douglas Forrester, James Forrester, Joe Collins and Robert G. Gibson, directors. The association will stage a play April 5 at 8 in connection with its membership drive.

**Go To Church During Lent**  
And I say also unto thee, that thou art Peter, and upon this rock I will build my church; and the gates of hell shall not prevail against it. And I will give unto thee the keys of the kingdom of heaven; and whatsoever thou shalt bind on earth shall be bound in heaven, and whatsoever thou shalt loose on earth shall be loosed in heaven.—Matt. 16: 18, 19.

## MEETING MAY HEAL DISRUPTED S.P.C.A.

Parent Body Calls Victoria's Members Seeking Peaceful Election of Executive

The parent body of the S.P.C.A., with headquarters in Vancouver, today set April 17 as the date for the general meeting of the Victoria group. Victoria S.P.C.A. is now without an executive due to the resignations of its officers over a disagreement on policy matters.

The meeting to be held in the Newstead Hall at 8 will be under the jurisdiction of parent body officials.

Stewart Evans, president, and members of the board resigned here on March 7. Since then the society has been in a state of confusion due to the split into two factions.

Evans refused to say whether he will run again for office.

"I have no comment. I have no idea. I have resigned from the S.P.C.A.," he said.

S.P.C.A. officials, who will be in charge of the meeting, hope to avoid a repetition of what occurred at the society's last meeting in March. The chairman at that time was unable to keep order among the members involved in bitter disputes.

Only members who have paid up memberships for 1952 (these can be paid at the doors at the meeting) will be allowed in the hall, it was learned. There will be no "campaigning" for individual members and the meeting will be confined to the election of new executive officers only.

## Ferry's Delay Brief Problem For Importers

The Mv. Chinook threw city wholesalers into a quandry Tuesday when it went into drydock in Seattle instead of continuing with its scheduled sailings to Victoria.

This caused a shortage of asparagus, cello-spinach and bananas in city stores. The asparagus and spinach arrive here in rationed quantities for daily use only.

Chinook is back on the run today.

A carload of fruit juices arrived here Tuesday direct from Florida. With the exception of orange and blended juices, prices remained firm. Orange and blended juices took a slight jump.

The first shipments of Australian onions arrived in Victoria Monday and local wholesalers report they are good, firm and rich in color.

A shipment of Oregon pears also came in, along with an order of No. 2 white potatoes from the Fraser Valley.

## Cancer Drive's Head Confident

The third day of Victoria's drive for the 1952 Conquer Cancer Campaign opened with \$3,200 in hand, and chairman John Hart of the Victoria committee is confident the minimum objective of \$30,000 will be reached.

"We are off to a good start," he said this morning, "and I feel sure our organization will bring in the money. Citizens are increasingly aware of cancer as a killer and realize that their contributions will help prevent it."

Donations should be mailed to K. L. Patton, Room 1, Black Ball Ferry Building, Victoria.

## Archivist Speaks To So-Ed Members

Willard Ireland, provincial archivist, spoke on the constitutional background of government Tuesday evening at the weekly So-Ed (social educational) class at the Y.M.C.A.

Ireland spoke mainly of the problems confronting the government in the amendments to the British North America Act. Movies on England and Switzerland were shown, and regular bridge and old-time dancing lessons were given.

Guest speakers at the So-Ed class Tuesday will be G. R. Elliott of Victoria College and Laurie Westendale. Elliott will speak on the basic functions of government, while Westendale will give lessons in the proper methods of conducting a meeting.

## Scottish Review's Success Indicated

Box office reports show every indication of a full house for Adeline Duncan's 1952 Scottish Review, April 7, at the Royal Theatre, in aid of the Victoria Nursing Home. It was learned today from Alex MacLeod, secretary of the Highland Games Association, MacLeod said plans have been completed for the show which will feature more than 100 dancers, pipers and singers, as well as two pipe bands.

## ARTIST AT ROYAL

### Famous Old Violin To Be Played Here

A 250-year-old Guarnerius violin will be used by concert artist Isaac Stern when he appears here April 10 at the Royal Theatre.

Currently on his ninth consecutive coast-to-coast tour, the distinguished American violinist has played concerts on every continent except Africa in the past three years.

His tours have included visits to Australia and New Zealand, Europe, South America and Israel. Last summer he was soloist with Pablo Casals at the Bach Festival at Prades, France. He has been heard at Philadelphia's Robin Hood Dell, New York's Lewisohn Stadium, the Hollywood Bowl and Colorado's Aspen Festival.

Since his New York debut at the age of 17 in 1937, Stern has risen steadily to the ranks of top-flight violinists.

His Columbia recordings are best-sellers and millions heard him in the Warner Brothers' film, "Humoresque," in which Stern ghosted the violin score for actor John Garfield.

## Camosun Gryo Club Elects Officials

Lawrie Wallace was elected by acclamation as president of Camosun Gryo Club of Victoria at the annual meeting Tuesday night in Oak Bay Beach Hotel.

Others elected were Bill McColl, vice-president; Gerry Bryson, secretary, and Jim McRae, treasurer. Named to the board of directors were Dr. Vincent Smith, Jack C. Hawkes, R. T. Kipling and Arnold Taylor.

New officers will be installed at a dinner for members and their wives on April 25 at 7 in the Empress Hotel. International officers of the Pacific Northwest region will conduct the ceremony, to be attended by visitors from Island and mainland clubs.

"We took Durango off the South American run because of greater activity here," he stated. "One of the three new ships now building, a passenger-cargo combination of the same general type as Loch Avon, will be on the Pacific run, and another new ship under construction may also call here."

Royal Mail Lines have between 5 and 6 million pounds sterling invested in new ship construction at the present time.

George Paulin, general agent for Royal Mail Lines, was aboard Durango to greet Warwick this morning.

The U.K. shipping man will visit Vancouver, New Westminster, and all major ports in the Pacific Northwest and California before turning to England.

WALTER C. WARWICK

## EYES ON PACIFIC

### British Trade Baron Studies Opportunities

One of the most influential shipping men in the United Kingdom, chairman of 35 companies and director of 17 others, is in Victoria today, aboard the Royal Mail Lines motorship Durango.

A short, jolly, humorous man, Walter C. Warwick has a hand in the operations of many of England's biggest shipping, insurance and trading corporations.

He has been connected with shipping all his working life, since he joined Burness, Witby & Co. as an office boy in 1906.

"A rather superior office boy, I hope," he commented with a sly grin.

Mrs. Warwick, who is accompanying her husband on his inspection tour of Royal Mail agencies on the Pacific Coast, does not agree that it is so simple. "If he dropped a chairmanship here and there, he might get home oftener," she said.

Committee agreed to advise the baseball club of Reid's recommendation and to ask for their comments.

Warwick reports that increased cargo offerings from this coast are causing greater interest in Pacific trade on the part of many shipping companies.

"We took Durango off the South American run because of greater activity here," he stated. "One of the three new ships now building, a passenger-cargo combination of the same general type as Loch Avon, will be on the Pacific run, and another new ship under construction may also call here."

Royal Mail Lines have between 5 and 6 million pounds sterling invested in new ship construction at the present time.

The U.K. shipping man will visit Vancouver, New Westminster, and all major ports in the Pacific Northwest and California before turning to England.

## Strike Halts Work At Navy Barracks

### Six Non-Union Men on Job Means Delay In \$1,800,000 Naden Expansion Project

Construction on the new \$1,800,000 barracks block at H.M.C.S. Naden stopped at 8 this morning when a picket line authorized by the Victoria Building Trades Council (T.L.C.) was thrown up at Naden's gates.

About 70 employees of Commonwealth Construction Co. Ltd., building contractors, were affected by the strike, and about 30 others in allied trades were turned away from work.

According to union officials, cause of the strike is the fact that six men employed by an excavating subcontractor have refused to join a union affiliated with the Victoria Building Trades Council (T.L.C.).

"As soon as they sign with a union affiliated with the council, then the situation will be cleared up," said Cliff Parker, Jr., assistant business representative of the International Union of Operating Engineers, Local 115 (T.L.C.).

The six men concerned include a shovel runner, shovel oiler and four truck drivers.

According to reports, however, the six men wish to join the Building Trades Council.

## DAFFODILS CUT, PICKER CAUGHT

The price of daffodils went up today.

In police court, that is. Kosmos Essihos, 1129 Burdett, was fined \$10 after he pleaded guilty through lawyer Donald Anderson to unlawfully cutting flowers in Beacon Hill Park.

Court was told Essihos picked about three dozen daffodils on park property near Cook and Dallas.

## Dominion-Wide Civil Defense Parleys Plan

Heads at All Levels Gather at Ottawa

By ROY THORSEN

While the Canadian public reaction generally may be rather "mild" with regard to the value of civil defense, there is ample evidence that local, provincial and federal governments are working hard at it.

Provincial and local "target area" co-ordinators will gather in Ottawa during the week of April 21 for a conference with the federal department in charge of home defense in the event of enemy action.

Brig. G. A. McCarter, deputy co-ordinator for B.C., reported today that the local and provincial bosses on C.D. will discuss welfare problems for the first three days and on the final three days will take up the task of inaugurating training for civil defense, as well as control matters.

Toward the end of the month federal and provincial standing committees on C.D. will meet in the federal capital to wrestle with over-all problems.

Brig. McCarter reports that C.D. co-ordinators and medical health officials of the western provinces will gather in Regina early in May to discuss mutual problems and attempt to find a solution.

Brig. McCarter reports that Seattle radio stations have praised Victoria provincial officials for the fine hospitality accorded Washington State visitors at the recent B.C.-Washington State mutual assistance C.D. conference held here and for the fine work done to further the pact.

ACCESS TO BEACHES  
Warren advocated that the committee continue to press for free access to beaches at Hetchich.

The matter was taken up with the provincial government but Warren said little could be done without public interest. He urged the committee to get other groups interested and "keep the matter alive."

A "Mutt Show" may be staged at Royal Athletic Park on a Saturday in April or May by Dr. Ballard's Animal Food Products Limited. Committee will recommend approval to council.

MAKE THEM JUMP  
Mexican jumping bean is a name given to the hard beanlike seeds of certain Mexican plants. The popular name of the bean comes from the fact that the pods containing larvae are seen to move from time to time, due to the motions of the worms within.

CECIL CARSON, suite 1, told police a rear window was forced open but the purse was out of reach of the thief.

Gnr. Edward Savage of Gordon Head Camp, escaped injury early today when his car went out of control and struck two trees at Burnside, near Grange Road. Saanich police estimated \$300 damage was done to the car.

City police impounded a car Tuesday night after it was badly damaged in a collision with a power pole at Skinner and Alston.

They said the driver was James W. Wray, 1133 Burdett.

Two teenagers were caught Tuesday night after they tried the back of a storage shed at 333 Johnson and stole two cartons of ice cream bars.

The pair—one 13 and the other 14—were taken to the police station and cautioned by Sgt. Jack Mason, then returned to their homes.

Monthly meeting of the James Bay Community Association will be held on the night of April 10, at 8, in the club's hall, corner of Dallas Road and Pilot Street.

Annual meeting of the Esquimalt Celebrations Association will be held at 8 Friday night in the Boilermakers' Hall, Esquimalt Road.

The King's Scout Badge has become the Queen's Scout Badge. That is official. Jackson Dods, deputy Chief Scout for Canada, has received this confirmation here from Her Majesty. He leaves today for up-island points to address Scout groups.

Monthly meeting of the Victoria Local Council, Amalgamated Civil Servants of Canada, will be held Thursday night at 8 in the lower board room of the Naval Veterans' Branch, Canadian Legion. It was announced today by W. Hole, secretary.

## Wine Important to Good Cuisine—But Not Canadian Varieties

### Male Pokes Into Kitchen Business

Seeking secrets of French cookery, reporter Ingham's nose for news led him to the fountain-head. Here, with Mrs. H. V. Bartholomew, Kay Riley and Gladys Downes, he studies one of Victoria College night class instructor's creations, "Soupe Bonne Femme." It's a simple recipe, he says. (Times photo.)

(This is the second of Times Reporter Don Ingham's series on a course offered by French cooking mistress Mabelle Anderson at Victoria College night courses. Now he has a male companion among the half-hundred women who are taking instruction in what the French correctly term the art of cooking. Each day this week he is reporting the course, and providing a rare menu with his tale.)

By DON INGHAM

Mrs. Mabelle Anderson, an impresario of the kitchen, Tuesday night told 44 women and TWO men (the second one came along out of curiosity to see what on earth his wife was so enthusiastic about) French recipes need not be expensive.

"You may think it's costly to use so much wine in cooking, but in France wine is so very cheap that it does not enter into the cost," she said. "Even here one bottle of wine will do for several dishes, and it's nice to use when you want to spread yourself a bit on a dinner."

Let us now face a provoking fact—Canadian wines are not suitable for cooking, Mrs. Anderson said. (She also inferred that they are not too good to drink.)

She uses Australian wines, and finds South African wines adequate. California wines are fine, she said, "except that we can't get them here," while those of Chile are closest of all to the French wines.

Mrs. Anderson zipped her pupils through the making of an apple tart, green beans saute, and dunked a roast of pork in wine to be cooked in a couple of days.

By the way, the roast chicken and boeuf en daube that were started Monday night were served Tuesday night, and were well worth the wait.

Today's recipe is "Soupe Bonne Femme," which Mrs. Anderson said means "whatsoever the cook happens to have in the kitchen." She said the soup she made Tuesday night was a disappointment because of the potatoes.

"They were old," she said, "and this is a poor time to get good potatoes." Here's how it goes: One pound leeks, one pound potatoes, butter the size of a walnut, half-cup cream.

Cut leeks and potatoes in dice, and brown slightly in butter. Add two cups water, bring to a boil, add salt and pepper, and cook until vegetables are very soft. Add cream or not, as desired, and serve poured over hot croutons. Vegetables may also be cooked in pressure cooker, and may be mashed and beaten, cream added, and served very hot without croutons.

"It's not a 'dress-up' soup," Mrs. Anderson said. "It's a family soup, and you'll want to eat a lot of it."

Executive meeting of Victoria Presbyterian in St. Andrew's Presbyterian Church, Friday at 2.

Esquimalt Women's Institute, general meeting, Thursday at 2, in the parish hall. Members will bring wool.

## Photographer and Firemen Change Penny's Column

By PENNY SAVER

Whew! I'm sure glad that's over! I'm still thanking my lucky stars that I'm all in one piece to pound out my column today.

It all started very innocently. I was just rushing out of the office to catch the bus for town when photographer Irving Strickland, bless his heart, offered to "drive" me to town. If that's driving, let it never happen to me again!

I guess his heart was in the right place when he uttered those fatal words, but sometimes I wonder.

If none of this makes sense to you it is because I'm still trying to collect my thoughts. I think I left them somewhere out Haultain way.

That's right! Now you know why I'm all in a dither. All I wanted was a ride to town and where do I end up? About a mile or more from there.

I was almost in town once, that was before my "friend" spotted a fire engine.

Then the fun began!

"Hold on, Pen," he shouted with glee.

I tried to answer him but found that with my nose pressed against the windshield it really wasn't the easiest thing to talk.

"Keep calm," I said to myself. (I'd never say it to Irving).

"Hope you're not in a hurry to get to town, Pen," he dared to say to me as we skidded around a corner.

"No. Oh, no," I said in a faint voice.

"Wonder where this fire is?" was his next brilliant comment.

"Don't know," I answered and collected myself off his knee. (Those corners are really rough).

We continued to bounce along behind the big red truck. Farther and farther we went until finally it started to slow down.

We had reached this terrific fire at last. But where was the smoke and flames?

When the car had stopped I was in comparative safety for a few minutes so I began to take notice of what was going on around me.

The alert firemen jumped from the truck and started to scan the street. No smoke! No fire!

You guessed it, false alarm!

"Oh well, Pen, that's the way it goes," was all my photographer friend said. Can you imagine it? I die a thousand deaths and that's all he says.

I must admit though that he did deposit me safely in town, but it was no good. I couldn't concentrate on a thing. Hope you'll forgive, just this once for not having any "hot" tips for you.

## WHY GROW OLD?

By JOSEPHINE LOWMAN

### Now—A Liquid Face Lifter; But Exercise Is the Right Way

Wonders will never cease! Guess what they have now. "They" means those wizards, the cosmeticians! There is now available a creamy contouring or face-lifting liquid which is visible and is applied under your makeup. I cannot say that it conceals all signs of age but it does improve the condition temporarily.

Of course we should also work for more permanent and natural results. The muscles of the face do sag and lose tone with the passage of years and I have seen too many lovely results among those women who have used facial exercises, not to believe in them. I receive many letters from women who have done mine faithfully for a few months, telling me that their friends are asking what they have been doing to themselves in order to look so much younger.

Facial exercises are also corrective to a sagging jawline. This is a good one: Sit in front of a mirror. Apply an oily cream and pat it in until the skin is soft and pliable. Open the mouth and pull the lips back away from the teeth. Keep the lips in this position as you slowly close the mouth. This should be done very slowly as though against resistance. Rest. Repeat. Do not do facial exercises rapidly, without first creaming the face, or too often. If you are doing three facial exercises, for instance, do each one only five times the first day and gradually increase until you are doing each one 15 times daily.

Remember too that one factor in aging is the decrease in the

### Perfume That Clings

Q.—Dear Claire: I adore perfume, but for some reason or other its fragrance just does not last on me. I have told several of my friends that I want a new perfume, but first I must find out about a lasting one.

—Mrs. A. W.

A.—A particularly good idea for women who claim that perfume does not "stay with them" is a brand new fragrance medium by Houbigant called Liquid Skin Sachet. It smoothes on the skin very easily and lingers longer because of its sachet base. It has a slower rate of diffusion and evaporation than any other type of fragrance. Try this Houbigant Chantilly Liquid Skin Sachet. Only \$2.00.

### Educationist Expert Deplores Softness In Training Child

WINNIPEG (CP).—The old saying "spare the rod and spoil the child" is still highly regarded by Prof. Neville Scarfe, new dean of education at the University of Manitoba.

"Softness for children is as bad as alcohol for grownups," the dean says. "It gives a false sense of confidence. Firmness is lacking today, not kindness."

Dean Scarfe, a recent arrival from Britain and father of three school-age children, says there is a tendency in Canada to omit any form of drill in physical training. He finds it strange because drill makes alert bodies and it can be fun.

"It's needed by children who cannot play games because they aren't agile enough," Prof. Scarfe says. "Yet you stress grammar and spelling."

Telling a child thin ice is unsafe is not enough either. "I tell my children it's going to be painful if they go on the ice... better a slap than death."

"Perhaps we try to protect our children too much," he says. "We tell them into false confidence until they don't know what is dangerous. Don't talk to them as they do on the radio. Speak to them in an adult voice when you speak of danger."

The dean says he used to pick up student hitch-hikers, "but not now. Let them walk... do them good. These high school boys are just lazy."

### TODAY'S RECIPE

**NUT-CRUSTED FRUIT MUFFINS**

One quarter cup unblanched almonds, 2 tablespoons granulated sugar, 1/4 cup seedless raisins, 2 cups sifted all-purpose flour, 2 teaspoons baking powder, 1 teaspoon salt, 1/2 teaspoon cinnamon, 1/2 teaspoon soda, 1 egg, 1 cup thick sour cream, 1/4 cup milk.

Grind almonds or chop very fine, and mix with 2 tablespoons sugar. Grease muffin pans, and sprinkle with a little almond mixture. Rinse and drain raisins. Sift flour with baking powder, salt, cinnamon and soda. Add raisins. Beat egg lightly and combine with cream and milk, and stir into dry mixture, mixing only until all of flour is moistened. Spoon into muffin pans, filling cups about 3/4 full. Sprinkle tops generously with remaining almond mixture. Bake in hot oven (400 degrees F.) about 25 to 30 minutes. Serve hot.

Makes about 15 muffins.

### Hostess at Luncheon

Miss Shirley Cameron will be hostess at a luncheon in the Oak Bay Beach Hotel tomorrow to honor Miss Elspeth Ker, whose marriage to Mr. James Helmcken takes place on Saturday, April 19. Guests will be Mrs. Donald Crisdale, Mrs. Charles Nelles, Miss Irene Ker, Miss Trudy Mangin, Miss Peggy Godfrey, Miss Janet Keniston, Miss Mary Helmcken, Miss Terry Castle, Miss Martha McCarter and Miss Kay Burt-Smith.

### For Lu-Ann Armstrong

Mrs. J. Gorman entertained at her Linden Avenue home with a miscellaneous shower Monday evening, in honor of Miss Lu-Ann Armstrong, who is to be married at the Easter tide. The honor guest was presented with a corsage of yellow roses and her mother, Mrs. Ruth Armstrong, received pink carnations. The refreshment table was centred with a miniature bride and groom in a bower of wild lilies. Mrs. Armstrong presided at the urns, assisted by Miss Gerry Kennedy.

Others present were the bride-elect's grandmother, Mrs. J. Irwin; Mrs. D. D. Wilson, Mrs. E. Ware, Mrs. G. W. Welch, Mrs. W. Clark, Mrs. A. Crossley, Mrs. D. K. Kennedy, Mrs. H. B. Knapp, Mrs. Bernice Irwin, Mrs. Archie Willis, Mrs. G. E. Little, Misses Marie Crossley and Kay Firth.

Miss Armstrong was honored at a shower last evening when Mrs. Donald D. Wilson entertained in the Vimy Street home of her mother, Mrs. D. B. Nickerson. A corsage of carnations was presented to the bride-elect and her mother received carnations. A miniature wishing well decorated in mauve and white held the gifts. Mrs. Armstrong and Mrs. J. Irwin presided at the refreshment table.

Those attending were Mesdames M. Clark, W. Crichton, R. E. Mayton, L. Gorman, K. Knapp, G. E. Little, E. Ware, G. W. Welch, Misses C. Bray, C. Firth and J. Rattray.

### Showers for Bride-Elect

Miss Georgina Baker, bride-elect of this month, was honored recently when Miss May Sandham was hostess at a shower. A corsage of white carnations was presented to the guest of honor and her mother, Mrs. S. J. Baker, received white and pink carnations.

Guests were Mesdames I. Sandham, A. Sandham, T. Ralph, F. Dalph, M. Raines, G. Baker, H. Baker, C. Sandham, Misses Gladys Jobie, Eileen Butler and Joyce Brown.

Earlier this week Miss Baker's co-workers at the Empress Hotel Laundry honored her at a shower. Mrs. S. Kenny, manager, presented her with a corsage of red roses and 32-piece breakfast set from the 30 guests.

Mrs. Ethel Stark was hostess at a shower recently in the Port Street home of her mother-in-law, Mrs. H. H. Stark, to honor Miss Betty Anderson, April bride-elect. Miss Anderson and her mother, Mrs. D. W. Anderson received corsages and the refreshment table was decorated with a shower cake and miniature bride and groom. Guests were Mesdames D. Windwood, J. Fennell, J. Kirby, Massey, A. Martin, C. Bivains, Misses Irene Woods, Betty Oulrim, Vickie King, Jean Rawlins, Beverly Heiman, Joan Anderson, Joan Sidwell and Mary Stark. Gladys Herbie and Ena Stark entertained with harmonica selections.

### Mother and Daughter Party

Miss Barbara Nation is entertaining this evening at a mother and daughter party at her home on Sylvan Lane, to honor Miss Jane Macintosh, who is to be married to Mr. Bruce Boyd on Easter Saturday. The party has been arranged by the young hostess as a kitchen shower. There will be 16 guests.

Mrs. Charles Wilson entertained a coffee party this morning at the Victoria Golf Club to honor her guest, Miss Edna Chase, South Amboy, N.J., and a number of feminine golfers who are visiting in Victoria this week for the impress tournament. Mrs. H. F. Mathews and Mrs. J. Sutherland, both of whom were present, presided at the coffee table. There were 50 guests.

Lady Swettenham, who has been visiting Mrs. Wallace Miller in Vancouver on route home from eastern Canada was guest of honor at a buffet dinner yesterday evening when her hostess entertained at her home in the mainland city. Other honor guests were Lord and Lady Glymer, who are leaving Vancouver shortly for the interior. Lady Swettenham is expected to return to Victoria soon.

### SALT SPRING ISLAND NOTES

### LADY ALEXANDER GIFT

### Containers Placed, Booths To Be Opened, City Points

Women of Victoria will be given an opportunity to contribute individually to the Lady Alexander Gift Fund when containers are left this week at the following central points: Victoria Press Ltd., Broad Street; B.C. Electric Co. Ltd., Douglas Street; Eaton's store and the Hudson's Bay store. Containers will remain at these points until May 30.

For the convenience of those wishing to contribute, small or large amounts, booths will also be set up for two weeks, April 12 to 26, at Eaton's Music Centre and on the Main Floor at Hudson's Bay store. These booths will be manned voluntarily by members of women's organizations in the city.

Arrangements for containers and for the booths have been made by Municipal Chapter, I.O.D.E., with Mrs. O. B. Ormond, chairman, assisted by Mrs. G. W. Little.

The "leaving remembrance" for the charming character of Rideau Hall, Ottawa, who lived among Canadians for six years and loved them, is a voluntary gift, and all donations for the fund are in the same category.

Mrs. Clarence Wallace, wife of the Lieutenant-Governor of British Columbia is this province's

League of Roses, Lances and Yorks, games night, Thursday, Evening— and Professional Women's Clubroom, 904 Government Street at 7.45. Refreshments, prizes. New members enrolled.

### Early May Tea, Bridge

Plans for the annual spring tea and bridge were made at meeting of the Ladies' Auxiliary to St. Joseph's Hospital's T.B. Villa. The affair will be held on May 6 in the Nurses' Home. Mrs. J. R. Lynch was named convener.

Mrs. John Hart has consented to be patron of the May event. A program of dances will be presented by the Wynne Shaw School and there will be door prizes. Proceeds will be used to purchase comforts for patients in the villa.

This is the only activity sponsored by the auxiliary during the year and members are working hard to make it a success.

## DYE HAIR AND LOOK MUCH YOUNGER

TORONTO, March 6 (CP).—To Theda Brake, a cosmetic color consultant, "hair coloring is just another cosmetic."

The days when a woman would lose her reputation if she dyed her hair are gone, says Miss Brake, who came to Toronto for the hair-dressers' conference. "With hair properly colored and styled, we can take 10 years off the age of any woman."

Women who have a hair-dresser tint their hair should have a retouch job every six weeks. For the home hair stylist, color shampooing is the simplest way to put on a new top hue.

Spring is the time for new hair hues, Miss Brake said. "Women get discontented through the winter. Spring calls for color. So out they go to dye their hair."

## Planning Easter Bazaar and Tea

Amid a spring bazaar and Easter setting, M. A. Cooley, senior regent of Victoria Chapter 25, Women of the Moose, will officially open their spring tea April 8 at 2 in Hard of Hearing Hall, 1416 Douglas Street.

In charge of stalls will be Mesdames A. Bird and E. Johnstone, sewing; Mesdames E. Cooper and E. Zarelli, candy; Mesdames M. Jones and M. Groat, flowers; Mesdames M. Hott and M. Morry, dolls; Mesdames D. Giles, A. McRay and E. Ball, tea; Mesdames D. Giles and V. Oakland, home cooking; and Mrs. F. Benzie, white elephant.

Final sewing bee will be held at home of Mrs. G. Priddle, 1501 McRae Avenue, Thursday, it was announced at recent meeting. Welcome was extended to graduate regent, Mona Devlin, Nainaimo Chapter.

Junior regent, J. Vasheresse, announced a special Easter tingo party at 1416 Douglas Street, on April 8. A social evening followed, convened by Mrs. D. Crooks.

## U.K.-Egyptian Agreement Forecast After Meetings

CAIRO, April 2 (Reuters).—Recent talks between Egyptian and British officials here on the shape of future negotiations to end their dispute have resulted in agreement, the independent newspaper Al-Ahram said today.

The main problem still to be overcome before full-scale negotiations begin is the exchange of formal commitments by each country of the major grounds for compromise, the paper said. When this stage is reached it will mark "a halfway point to final agreement."

Since Saturday British Ambassador Sir Ralph Stevenson has met several times with Foreign Minister Abdel Khalek Hassouma Pasha. No official statement on the talks has been made.

"The meetings are regarded as the preliminary to a final solution to Egypt's demands—that the British evacuate the Suez Canal zone and that the adjoining Sudan be incorporated under Egyptian rule."

Britain is said to agree to a

withdrawal of troops if Egypt will set up a Western-approved Middle East defense pact to guard the vital canal zone.

Egypt, however, says the two questions should not be discussed together.

The Sudan, now jointly ruled by Britain and Egypt, should be allowed to settle its future by plebiscite, Egyptian officials say, predicting the vote would result in union with Egypt.

Britain has traditionally held that the Sudan should eventually be completely self-governing.

Full-scale negotiations are not expected to begin until after the May 18 elections, which Premier Hilali Pasha hopes will give him a firm parliamentary backing.

Hilali has no official following, but he is pledged to internal reform and a purge of corruptive elements as well as settlement of the Anglo-Egyptian dispute.

Eight Sightseeing Tally-Ho Licenses Up for Approval

Eight licenses for horse-drawn tally-hos will again be issued by the city this year if city council approves.

Council's public works committee Tuesday agreed with Police Chief John Blackstock that the number of licenses should not be increased.

Ald. Percy Scurrah, chairman, felt there was no need to change present policy.

Robert Doble, traffic engineering assistant, was authorized to continue negotiations with the provincial government regarding staggering working hours. In an attempt to relieve peak-hour traffic congestion on Government Street.

Letter from Greater Victoria Taxi Owners' Association asking greater police control and supervision of taxi cabs was referred to the police commission.

### World's Longest Cable Span

Before the first cable for The Consolidated Mining and Smelting Company's 10,656-foot Kootenay Lake power span was secured in place on March 28 the longest known single span in the world was in Switzerland, covering a distance shorter by 3,000 feet. The lake span was built to carry power along the route

of Cominco's new 87-mile power line being constructed from power plants on the Kootenay River near Nelson to the company's operations at Kimberley, with a branch line to supply the Bluebell Mine at Riondel. The project is part of Cominco's \$63,000,000 expansion program.

### BITES FIANCEE'S NOSE, GETS 27 MONTHS' PRISON SENTENCE

DARMSTADT, Germany, April 2 (Reuters).—It wasn't a case of kiss and make up after Tassilo Horn quarrelled with his fiancée.

Brooding because 23-year-old Elfriede Kartscher stalked off to a local fair after the quarrel, Tassilo stretched out on a couch in her home to wait.

When Elfriede got back at 4 a.m. she bent down to kiss him good-night. Tassilo bit.

A court sentenced him Tuesday night to 27 months imprisonment for biting off the tip of her nose. He said he meant to bite her arm but missed.

His ex-fiancee has a new tip on her nose—the skin grafted from her forearm—but a doctor said it would take eight to 10 years before the scar from Tassilo's bite disappears.

### TROOPS RE-TAUGHT

## Army Drill Now 'Guards Style'

By ROY THORSEN

The Canadian Army has adopted a standardized parade ground drill for all of its units and branches.

While there used to be about a half dozen different pamphlets on drill procedure for the various branches, the army has issued one manual to be followed by all.

"It does away with those 'things a little different' some branches devised to make themselves individual from the general mob," one officer put it.

The drill now embraces features like the "guards" style" kick and stamp, the short one-two halt and a new about-turn, partly on the U.S. style.

R.S.M. Bill Waldron, of the Scottish A. and T. staff, described the new "about" as being "neat."

Lt.-Col. Arthur Perron, commandant of the army in this area, said the new manual was now being followed.

MAJ. JEFFERY BAKER

PTE. DAVID RICHARDS

Lt.-Col. Walter Mosedale, O.C. of the 1st Battalion, The Canadian Scottish Regiment (Princess Mary's) is presently running a course at the conclusion of which the soldiers will be examined on the new drill.

#### IN KOREA

Maj. A. Jeffery Baker, Victoria, is in Korea as an officer with Brig. M. P. Bogert's staff. Brig. Bogert has taken over command of the 25th Canadian Brigade from Brig. John M. Rockingham, Victoria.

Maj. Baker is the son-in-law of Mr. and Mrs. A. J. Patton (the city solicitor). His wife is staying with the Pattons at their 1154 Old Esquimalt Road home. The major served overseas with the Canadian Scottish and in action with the Essex Scottish in World War II. He was repatriated after being wounded.

#### ON WAY HOME

Mrs. Dorothy E. Richards, 1154 Kings, reports that her son, David Edward Richards, is en route home after a tour of duty on the Korean battlefield with the Royal Canadian Army Service Corps. Date of arrival is uncertain.

The local reserve army—and it's likely being followed else-

where—has pared down its strength; paper strength, that is.

"Throughout this area we've been cutting out 'deadwood' (part-time soldiers who have signed but don't turn out for parades) and the result is that although less in strength on our nominal rolls, we still have as many men on parade as before," said Lt.-Col. Mosedale.

"Every man in the military 'know' in this country has been stressing the importance of the reserve army should an emergency arise—and if those fellows who signed on with us won't fulfill their contract, the army doesn't want them and neither do we," said Col. Mosedale.

An example of the paring is that in the Scottish. While early last year the unit had around 225 bodies on paper the actual strength active now is about 115—and they are good strength," the Scottish colonel concluded.

### Income Tax Penalties Increased in Italy

ROME, April 2 (AP).—For the first time in Italy's fiscal history, filers of false income tax returns face jail. Elio Varoni, Italy's finance minister and chief architect of the nation's tax reform, said the government plans to inflict such penalties in the second round of filings, beginning today.

### Antidote to Communism

More adventure in modern scouting is partly responsible for the increase in scout population, Jackson Dodds, deputy chief scout for Canada, told members of district scouting groups and committees at a meeting in Scout headquarters Tuesday evening.

Dodds suggested that "church basement" scouting deadened interest in the movement, and urged plenty of outdoor activity, all year round.

He held that the 5,000,000 scouts in the world were the great antidote for communism and all other "isms" that all the world.

There are more than double the number of scouts now than before World War II, he said, but every effort should be made to interest more and more boys in the movement.

### Senator Raps Appointee Pay

OTTAWA, April 2 (CP).—Senator John T. Haig, opposition leader, said Tuesday Canada should make the posts of provincial lieutenant-governors worthwhile or abolish the system.

The Manitoba senator said he agreed wholeheartedly with a \$21,000 item in the supplementary estimates to allow Canada's lieutenant-governors more for traveling expenses and entertainment. At \$9,000 a year, he said—on which they must pay income tax—they are "not rich very last."

He believed Canada should "either abolish the system and have the chief justice or someone like that perform the ceremonies, or else make it worthwhile."

In making the comment he paid tribute to Manitoba's lieutenant-governor, Hon. R. F. McWilliams, and his lady for their great and excellent service to the people of that province during the last 10 years.

### Giant Helicopters To Serve Cities

LONDON, April 2 (Reuters).—British European Airways plans a network of giant helicopter services to cover all major cities within 300 miles of England. The scheme will begin when B.E.A. receives the 150-m.p.h. 45-passenger helicopters it ordered recently.

COLE SLAW DRESSING  
1 teaspoon Colman's Mustard  
1 tablespoon flour  
1 tablespoon sugar  
Few grains pepper  
1 tablespoon melted butter  
or salad oil  
1 egg yolk  
1/2 cup hot vinegar  
1/2 cup whipped cream

Mix all ingredients—except the cream—in the above order. Cook in double boiler; strain and cool. Then fold in whipped cream.

## City Turns Down Conservatory Offer

Royal Roads conservatory is a dead issue as far as the city of Victoria is concerned.

City Council parks committee recently received and filed a report from parks administrator W. H. Warren off cost of salvaging and storing the conservatory.

The issue came into prominence last year when an official of the Department of National Defense inquired of city manager Cecil Wyatt whether the city was interested in acquiring a portion of

the conservatory, which is at Royal Roads.

Although no official offer was ever made, the matter was referred to various civic departments for report.

Warren said the city could salvage and store the building for \$3,750. He estimated restoring it with a propagating greenhouse would cost \$43,180 and annual maintenance would run \$16,000.

Parks committee felt cost was prohibitive.

Interest further dwindled when

it was learned Ottawa officials might wish the city to recondition the remaining portion of the greenhouse at Royal Roads, in return for the gift of the main conservatory.

#### EARLY EXAMINATIONS

The oldest known system of examinations was that used in China for the selection of officers for the public service, according to the Encyclopedia Britannica.

This dessert is **Good 'n Fast**

This is the whole family's all-time favourite—Shirriff's Vanilla Bud Dessert. Serve it plain or topped off with fruit. You just can't beat that wholesome flavour, for Shirriff's seal the vanilla liquid-fresh in an air-tight bud. Use it for filling pies, tarts and cakes. So fast, so easy to make, you don't waste a minute. Delight the family (and your budget) with all four of Shirriff's wholesome Bud Desserts... Caramel, Butterscotch, Chocolate and Vanilla.

**BEDTIME STORY**

by Thornton W. Burgess

Prickly Porky is obstinate. The surest way of getting him to do what you want him to do is to make him think you want him to do just the opposite.

Buster Bear wanted to climb up to the nest of Hooty the Owl in a big tree in a lonely part of the Green Forest. Two young owls were up in that nest. They would make a very good dinner for one who could find nothing else. Buster had started to climb the tree when he discovered that between him and the nest and right in his way was Prickly Porky.

Now Buster knew Prickly Porky and all about the thousand little spears called quills carried in his coat. He should have known also how obstinate Prickly Porky can be. Perhaps he did, but forgot it. Anyway, he made the mistake of blustering and making dreadful threats as to what would happen if Prickly Porky didn't get out of his way. Prickly Porky simply whined and fretted and stayed right where he was. Then Buster tried being pleasant and politely asked the prickly fellow to move just a little aside so that he, Buster, could climb past him without touching him.

Prickly Porky wouldn't. Instead he got a little more in Buster's way. There had been almost room enough for Buster to get past without brushing against Prickly Porky by keeping on the opposite side of the tree. Now there wasn't. Once more Buster lost his temper, snarling and growling all sorts of dreadful things he would do to Prickly Porky if he didn't move aside.

"Don't you touch me. You'll be sorry if you do," whined Prickly Porky and stayed right where he was.

At last Prickly Porky began to stir. Prickly Porky is very slow in moving about. He doesn't believe in hurrying. It is seldom he has occasion to hurry. It seemed to Buster that he never would do what he was so long getting ready to do. At last Prickly Porky began to really move, but he was moving in the wrong direction. Instead of climbing along the big branch he had been sitting on he was backing down. And as he backed he swung his tail from side to side. Great big Buster Bear actually had to back down a little or be slapped in the face by that tail, and that would have been nothing short of dreadful. It would have meant getting his face filled with the sharp, painful little spears with which Prickly Porky's tail is armed.

Buster growled a warning as he backed. Prickly Porky took no notice, but kept on backing down, all the time swinging that hateful tail. Buster backed down a little more. Finally in disgust he gave up and dropped out of that tree. Then Prickly Porky stopped and made himself comfortable where he was.

**Pacific Pact Not Due Yet, Says Pearson**

OTTAWA, April 2 (CP).—External Affairs Minister Pearson told the Commons Tuesday the time is not yet ripe to set up a Pacific pact along the same lines as the North Atlantic Treaty Organization.

He thus rejected a suggestion by Howard Green (P.C.) Vancouver-Quadra that Canada take the lead in proposing development of a Pacific Pact, or at least join the United States, Australia and New Zealand in their Pacific Security Treaty.

Mr. Pearson said during a foreign-policy debate that Canada within the last few months discussed "with the governments most concerned whether it now is desirable or possible to broaden this more limited security arrangement into a Pacific pact; and the objections to that broadening remain strong."

Those objections were accepted as "over-riding" by practically all countries concerned with Pacific security, he said.

**Australia Plans Antarctic Permanent Research Station**

MELBOURNE, April 2 (Reuters).—Australia this summer plans to establish the world's first permanent research station on the Antarctic continent.

The government already is building a special ship to take an expedition of high-skilled technicians through miles of pack ice to the land shelf of the continent itself.

The expedition will build and maintain a permanent weather station on the Australian section of the continent, but the exact location is not yet known.

Many Australian scientists feel Antarctica may yield vast mineral resources.

A government spokesman said recently that the purpose of the new station will be "to maintain Australia's and Britain's interests in the Antarctic, to survey unexplored regions of the Antarctic coastline and to carry out scientific work."

For the last five years the government has been maintaining research expeditions at lonely snow-swept islands in the Antarctic Ocean.

Two stations set up in 1947 on Heard and MacQuarie islands have provided valuable data for scientists throughout the world on geomagnetism, cosmic rays, radio-physics, seismology and aurora in the Antarctic.

Every six hours results of meteorological observations are transmitted by radio to Australia, South Africa and New Zealand.

**Canada Seeks To Seize Ships In Red Hands**

OTTAWA, April 2 (CP).—Canadian banks have taken proceedings to "arrest" the seven Ming Sung ships now in the Red Chinese territory, Prime Minister St. Laurent said Tuesday.

George Drew, Opposition leader, asked the prime minister whether the government has any information to support press reports that the Reds are getting the ships ready for a 950-mile dash from Canton to Shanghai.

Mr. St. Laurent said he has no information about the proposed dash along the Chinese coast. The only instructions which had gone out were those by the Canadian banks which hold a \$12,000,000 mortgage on the Canadian-built ships, he said.

The banks, at the government's suggestion, he said, had taken such proceedings to arrest the ships as may be possible.

No steps to forbid the ships to fly the Canadian flag could be taken beyond erasing them from the Canadian registry, he said and so far that has not been done.

## MARGARET TRUMAN LOVELY But Voice Quality Lags Behind Interpretive Art

By AUDREY S.D. JOHNSON

A ravishing picture, her camelilla skin and fair hair set off by a crinoline gown of palest shell pink, and carrying an armful of loose American Beauty roses, Margaret Truman made her first professional appearance in Canada at the Royal Theatre, Tuesday.

There is, to speak frankly, almost no voice at all, so limited is the range; the quality, even intonation frequently faulty. An at best, less than mediocre; the occasional note suggested to me that there might have been a quite pretty voice of the drawing room variety, at one time.

But continual concertizing and exploitation of such vocal equipment as Miss Truman possesses, almost inevitably results in the rubbing away of whatever good tonal quality it contained.

I find it difficult to believe that the singer is entirely unaware of her shortcomings. One does not sing "The Lass With the Delicate Air," "Guitares et Mandolines" (Saint-Saens), or "Batti, Batti, O Bel Masetto" (from Mozart's "Don Giovanni") with

such apparent effort and not feel the strain.

The brevity of the program, long pauses between the songs and the groups, further suggested this.

### NOTHING EXACTING

Certainly it was not an exacting program. Aside from the last named Mozart aria and a deceptively simple-sounding "Lullaby" by Cyril Scott, there was nothing that the average singer could not romp through with ease.

Given a more adequate instrument, Miss Truman would be a pleasing interpretive artist, for she demonstrates a lively understanding of the content of her music.

Despite wandering so often and so far from the centre of the note, she achieved some fairly effective moments in a group of French chansons; especially "O Mon Cher Amant" (Offenbach) and "A Des Oiseaux" (Ilie). These suited her better than anything else on the program.

The large, but under capacity audience, was won over by the piquant charm and the infectious Truman smile, and brought her back for two encores at the end of the program. But I could not help thinking of the dozens of young people with fine voices who knock on the doors of agencies for months and often never get a chance to be heard. It's a strange set of values that governs the box office and it is the box office that dictates careers and creates concert artists!

HELEN GRAYCO will be a top attraction with Spike Jones and the City Slickers when they appear here at the Memorial Arena April 18 in the Musical Depreciation Revue of 1952. Pretty singer is Mrs. Spike Jones in private life. Tickets go on sale Friday at 9, in Eaton's Music Centre.

## Unique Pageant of Theatre History Entralls Art Centre Audience

By E. M. JOHNSON

A pageant of theatre history, presented in an original manner, kept an audience enthralled for more than two hours Tuesday night, at the Arts Centre, Moss Street. It was the first in a series of four lectures to be given by Ian Thorne, L.R.A.M., L.G.S.M.

The lecture gave an interesting insight on the seeds of modern drama as found in the religious rites of the Greek god, Dionysus, its development and divisions, to the point at which actual theatre took the place of pagan rites.

Thorne unfolded this history by deft use of photographic slides and sketches.

An acted demonstration of the golden age of Greek theatre was interwoven with the talks. These took the form of excerpts from Aeschylus' drama "Prometheus Bound" and "Oedipus Rex" by Sophocles.

The actors in both cases were Gordon Mathews and Ian Thorne. The costuming of "Prometheus Bound" was done in the early Greek manner, with mask, padding, and raised clogs. It is understood that Mathews created these adjuncts himself, for the demonstration. The effect was astounding.

A portion of "Medea" was read by Olive Keane to illustrate the work of the Greek dramatist Euripides. Two scenes out of Aristophanes' comedy, "The Frogs," were rendered.

Taking part were, John Keane, Gordon Pether, Bruce Banyard, Gordon Mathews, and chorus. This otherwise able presentation was slightly marred by the public address system being over-loud.

Thorne brought this first talk

to a close at a point where the Christian church having banned theatre, found itself, in the middle ages, making use of the medium once more in its own rituals. From this developed the mystery and morality plays.

The final example of the evening was an excerpt from the morality play, "Everyman." This was given by members of the Victoria College Players group.

Colin Graham, curator of the Arts Centre, announced that the next of these lectures would take place on Wednesday, April 9.

## Manitoba House Nears Prorogation

By The Canadian Press

Manitoba's legislature, which opened February 5, probably will prorogue Thursday.

Premier Douglas Campbell said Tuesday night the work of several committees now holding hearings must be cleared up before prorogation. Six controversial bills remain to be introduced.

Rural citizens, hit hard by natural and economic factors affecting their way of life, found a champion yesterday in the Ontario legislature.

Opposition leader Farquhar Oliver called on the government for "drastic action" to aid farmers in the present time of collapsing farm prices. The government should pay freight shipment of frost-damaged western grain to Ontario livestock growers and should reinstitute a bonus on premium bacon.

## "BUCK-PASSING"

At Halifax the federal and provincial governments were accused of "buck-passing, academic argument and shadow-boxing" in the matter of aiding fishermen, hit by winter storms.

At one point W. H. Brown (P.C.-Yarmouth) referred to Resources Minister Winters "who is supposed to be representing Nova Scotia in the federal cabinet." Winters approved federal aid to western farmers suffering losses because of foot-and-mouth disease but said further study was required on storm-damaged fisheries.

Cost of living occupied the New-

foundland legislature where Supply Minister Forsey said the standard of living also has improved. Defending the Liberal government against Opposition charges that nothing has been done on keeping prices down, Forsey said the government could do little.

But it had done much to create

## P.C.'s Viewed As Rudderless

OTTAWA, April 2 (CP).—Senator J. Gordon Fogo, president of the National Liberal Federation of Canada, said Tuesday night the Progressive Conservative Party "has no fixed policy at the present time."

This was the reason, he told a dinner meeting of the National Federation of Liberal Women of Canada, why George Nowlan, president of the Progressive Conservative Association, told a party meeting here last week that if they came out with their policies too soon, the policies would be stolen by the Liberals.

No one, Senator Fogo said, had been able to determine Progressive Conservative policy in the past. It changed with every wind that blew. And Mr. Nowlan's excuse for not announcing policy was simply to "account for the fact that his party has not changed and that it has no fixed policy at the present time."

employment and raise living standards.

Premier McNair expressed hope for a great industrial program in New Brunswick from power development of the St. John River, he told the Fredericton house.

Another river—the South Saskatchewan—occupied the attention of the Regina house. Opposition leader Walter Tucker said Prime Minister St. Laurent has been told that engineering phases of the river dam involve "a number of, very disturbing features and obvious risks."

Speaking during discussion of a resolution urging quick construction of the dam and irrigations project, Tucker referred to expected "high costs" and added irrigation benefits would not be realized for eight to 10 years.

The resolution passed unanimously.

## HOW TO WIN FRIENDS...

Vancouver, April 2 (CP).

A suggestion that all Vancouver civic employees turn back part of the wage increases granted this year to help balance the 1952 city budget was made Monday night by Alderman Jack W. Cornett.

Ald. Cornett said the civic workers wouldn't really lose "because they're paying a lot of their increases to the federal government in income tax."

He suggested a \$240,000 "kick-back" by the workers, who received an average 13 per cent pay increase this year.

## Half-Sunken Ship To Be Refloated

SANDWICH, Mass., April 2 (AP).—Army engineers have announced that the freighter S.S. Arizona Sword, half submerged in the Cape Cod Canal for almost a year, will soon be afloat. The 1,800-foot vessel and its 4,800-ton cargo of sulphur were abandoned by her owners and became the property of the U.S. government. She collided with the collier Berwindale on May 5, 1951, about 1,800 feet inside the east end of the canal.

# JURY CONVICTS WILLIAMS IN CHINESE DEATH

Hero Earned His Bed and Breakfast

It might seem like small reward for youngster who scored winning goal in gruelling Cougar-Royals overtime battle at Memorial Arena Tuesday night. But Reg Abbott was appreciative. Team-mates Bob Frampton and Leon Bouchard, and Abbott, are happily relaxed today. Reg, particularly, enjoyed light breakfast. This trio meets Royals again tonight in fifth game of series at New Westminster. City's hopes ride with them. (Times photo.)

## Recuperative Powers of Cats Could Prove Big Factor in Sixth Battle

By DENNY ROYD

Recuperative powers will be an all important factor tonight as Victoria-Cougars and New Westminster Royals square off for what may be the most crucial game in their best-of-seven Pacific Coast Hockey League semi-final series at Queens Park arena.

After battling through 90 minutes of the most gruelling hockey seen on Memorial Arena ice this season, Cougars scored a thrilling 4-3 overtime victory Tuesday night to square the series at two victories each.

The extra period and a half played Tuesday is bound to tell on the teams—and the one which can bounce back tonight could take a strangle hold on the series.

**WIN A MUST**  
For the Cougars, a win tonight is a must, as the sixth game will be on Victoria ice. Both Cougar wins have come at home.

A far younger club than the Royals, Cougars may have the

edge in recuperating from Tuesday's game.

Royals' roster is made up of a nucleus of veterans and they may find that the overtime game took a greater toll from them than it did from the younger Cougars.

Both clubs may be a man short tonight, the result of injuries sustained Tuesday. Royals' Jerry Cabana is a doubtful starter as he received a badly twisted knee in the second period and did not return to the game.

Unknown to many fans Cougar defenseman Ernie Roche played

two full periods with a severed tendon in his little toe.

Roche has been advised by team physician to sit out tonight's game but the big rear-guard, showing the tremendous spirit that has hit the club recently, vowed he would play the game on crutches if necessary.

Roche's spirit in the face of injury is just one reason why coach Roger Leger is confident that the Cougars will return with the series lead.

## EISENHOWER TRAILS IN NEBRASKA VOTE

Kefauver Swamps Kerr in Democratic  
Primary; Heavy Balloting Marks Test

OMAHA, April 2 (AP)—Senator Taft of Ohio drove to a hard-fought victory today over General Eisenhower on the basis of mounting returns from Nebraska's grueling Republican presidential primary.

With three-fourths of the state's 2,058 precincts counted, the trend clearly indicated that only a political bombshell could reverse the slow but steady flow of votes toward Taft.

With 1,512 precincts counted, Taft's lead of 12,500 votes over Eisenhower was roughly the plurality given him in Omaha.

In the Democratic presidential contest, lanky Senator Estes Kefauver of Tennessee scored an impressive victory over Senator Robert Kerr of Oklahoma. Kerr conceded his defeat early today, thanked the voters of Nebraska for courtesies, and then said his defeat would not halt him in his fight for the Democratic presidential nomination. But the defeat was a jolt because it came in his first entry into a primary contest.

The latest rundown, based on 1,512 of 2,058 precincts:

Republican Taft, 53,705; Eisenhower, 41,225; Stassen, 35,997; Mrs. Mary K. Keeney (stand-in for Gen Douglas MacArthur), 6,615.

Democrats, 1,483 precincts; Kefauver, 44,890; Kerr, 29,439.

## Judge Regrets Inability to Sentence Death

Sutton Given 30  
Years in Prison

NEW YORK, April 2 (AP)—Bank robber Willie Sutton was sentenced today as a fourth offender to 30 years to life imprisonment. The judge said he wished he could sentence Sutton to death.

Said Judge Louis Goldstein in sentencing Sutton as a fourth offender: "I only regret that the law prevents me from sentencing you to death." He had pleaded guilty to a gun-carrying charge.

Sutton stood, blinking and handcuffed to two guards but made no comment during a 15-minute castigation delivered by the judge.

## U.S. Communication Systems Face Strikes

WASHINGTON, April 2 (AP)—Telegraph and telephone systems in the United States braced today for a series of threatened strikes due to start at midnight.

Approximately 30,000 Western Union employees were set to walk off the job across the country. A top official of the Commercial Telegraphers' Union (A.F.L.) said "there definitely will be a strike as matters now stand."

The Communications Workers of America (C.I.O.) has called a strike of more than 40,000 American Telephone and Telegraph workers in Ohio, Michigan and northern California for tomorrow morning. And 16,000 Western Electric Co. employees in 43 states have scheduled a strike for Monday. Western Electric is a subsidiary of American Telephone and Telegraph Co., and its employees are also represented by the C.W.A.

If the Western Union strike comes off as scheduled, it is expected to cripple telegraph facilities from coast to coast, with the exception of New York City. Employees there belong to another union. But even in New York the C.T.U. is preparing to set up picket lines in an effort to make the shutdown airtight.

The union is demanding a 16-cent across-the-board wage boost. It also wants its work week reduced from 48 to 40 hours, with no reduction in pay.

So far the company has made no offer. It contends it is not in a position to increase wages, now averaging about \$1.63 an hour.

The C.W.A., headed by Joseph A. Beirne, is demanding "substantial" wage boosts, but Beirne has avoided pinpointing them. Average wage for telephone workers is around \$1.53 an hour, the union says.

## BULLETINS

### Tabling Delayed

Today's scheduled tabling in the Alberta Legislature of the conservation board's report on gas export at Edmonton was delayed until after the Vancouver stock exchange closes, it was learned today.

### Casualty List

OTTAWA, April 2 (CP)—The army today issued its 101st "casualty" list of the Korean war, reporting one officer and four men wounded in action. The last previous list was issued last Sunday. No British Columbians were listed.

### Arrest Suspect

HAMBURG, Germany, April 2 (AP)—Police said today they arrested a 28-year-old man as a suspect in the mail-bomb attempt on the life of Chancellor Konrad Adenauer. He was taken by plane to Munich, where a package addressed to Adenauer exploded last Thursday, killing a police expert who was examining it and injuring four others.

### Lujack Retires

CHICAGO, April 2 (AP)—Quarterback Johnny Lujack of the Chicago Bears today announced his retirement from pro football after a conference with club owner-coach, George Halas.

Lujack's four-year contract with the Bears, calling for a reported \$20,000 annually, expired at the end of the 1951 season.

### Russia Admitted

ZURICH, Switzerland, April 2 (AP)—The Soviet Union has been admitted a member of the International Ice Hockey Federation by a vote in the Dr. Fritz Krazat, president of the federation, announced today. Dr. Krazat said the vote was 30 to 7 with seven abstentions.

## Big Red Assault Starts

SEOUL, Korea, April 2 (UP)—Some 1,500 bugle-blowing Communist troops shouting "Kill! Kill!" hit the United Nations line today in the biggest enemy ground attack in three months.

The initial impact knocked U.N. troops off a hill west of the Allied truce camp town of Munsan on the western front, but the Doughboys rallied and recaptured the height in bloody fighting with rifles, bayonets and grenades.

At last reports, the Reds were retreating northward.

In the air, American Sabre jets damaged three more Communist Mig-15 jet fighters in a morning dogfight over "Mig Alley" to run their 24-hour toll of enemy jets to 26 destroyed or damaged. Ten Migs were shot down Tuesday, three more probably destroyed and 10 damaged.

### COMMUNISTS WARNED

PANMUNJOM, Korea, April 2 (UP)—The United Nations warned the Communists today that the Allies will not withdraw their veto of Russia at a higher level truce meeting Thursday.

Col. Don O. Darrow of the U.N. said the Allies never would accept the Reds' nomination of Russia to the neutral truce inspection commission because the Soviets cannot be considered neutral in the Korean war.

## Manslaughter Verdict; Panel Asks Leniency

By DAVE STOCK

Alexander Williams was found guilty of manslaughter in Assize Court today.

A 12-man jury returned the verdict at 1.13, after one and one-half hours' deliberation. The jury recommended leniency.

Mr. Justice J. O. Wilson, presiding, ordered Williams to be held in custody until the end of the Assize sitting for sentence.

Members of the jury trying Williams for the murder last Jan. 15 of Chinese messboy Dong Yew Yin, aboard the steamer Princess Joan, retired to consider a verdict after listening to His Lordship deliver an hour-long address, reviewing evidence, explaining points of law, and charging them with their responsibility.

The courtroom was jammed to overflowing. The crowd, comprised mostly of elderly men, and young and old women. There were some Chinese.

During the judge's summary of the case, spectators leaned forward as one so as not to miss a word. Some of the crowd brought lunches.

His Lordship began his charge

at 10.35. He told jury members the crime they were investigating involved "a humble member of society," a Chinese messboy.

He informed jury members they must conduct their investigation of all the circumstances with the same "scrupulousness" they would in the case of a cabinet minister.

With reference to the prisoner, who was formerly an engineer-room wiper aboard the Princess Joan, the judge said that although he did not hold an exalted place in society, he was as important as anyone in a high post.

"You are called the jury and I am called the judge," His Lordship said. "But we are, in fact, all judges. And you are more important for it is up to you to decide the guilt or innocence of this man."

His Lordship instructed the jury it had three possible verdicts from which to choose: guilty of murder, guilty of manslaughter, not guilty.

He dealt at length with the manslaughter charge.

He explained that a person causing death by committing an unlawful act could be found guilty of manslaughter even though he had not intended to kill but had acted on sudden provocation.

"Provocation does not entitle

him to acquittal, it merely reduces what would otherwise be murder to manslaughter," His Lordship declared.

The judge went into a review of evidence, suggesting the Chinese messboy had been a homosexual and a statement allegedly made by Williams that Yin had made improper advances to him and that he had struck and killed him in anger and had then disposed of the body by throwing it overboard.

"It seems to me, although it is up to you to decide, that statements, exhibits 23 and 24, were made by him. It is up to you to decide whether they are true or untrue," the judge said.

He said the jury could accept part of the statements as being true and reject other parts as being false.

He observed Crown counsel Joseph McKenna would have the jury accept the part in which Williams admitted killing Yin, but would have them reject the explanation for his action.

death, but that the Chinese might have fatally injured himself in the fall.

"Ordinarily," the judge declared, "when one man strikes another with his fist, he does not intend to kill. But if a blow is unlawful and if death results, a man can still be found guilty of manslaughter."

His Lordship concluded his submission by urging jury members not to be troubled because the body of the Chinese had never been found. He suggested the jury accept the written statement allegedly made by Williams as ample evidence that there had been a death.

He chided the press for placing too much emphasis on the need for producing a body in murder cases.

"The press delight in referring to the corpse defect," the judge declared. "But we don't ordinarily have bodies brought into a courtroom when we are trying murder cases."

**Closing Prices**

Trading at Vancouver continued active to the close today with bids among leading favorites in the western oils pushing a wide list to new highs.

Fargo was traded in volume around \$1.90 at the close after a good climb; Pacific Petroleum, City, Royalite, Central Leduc and Calvan continued in demand to the finish.

**NEWCASTLE UNITED IN CUP FINAL**

LONDON, April 2 (Reuters)—Newcastle United, holders of the coveted British Soccer Cup, entered the cup final today by defeating Blackburn Rovers 2-1 in their semi-final replay at Leeds.
